Using big books and student editions, historical events are presented within a chronological and geographical context. Students at every level learn about the significant people, places, and events that have shaped California and the entire country.

More effectively meet the diverse literacy needs of the growing Latino population by learning how to evaluate and select quality Latino children's literature. * Figures relating to Latino population growth, home language of Latinos, and stressors of recently arrived Latinos * Extensive bibliography of print and web resources for developing collections of quality materials about Latino cultures, professional publications related relating to evaluating Latino children's literature and integrating the literature into classrooms and libraries, and recommended English, Spanish, and bilingual children's and young adult books about Latinos * Contains useful resources such as reproducible bookmarks of recommended Latino children's books, evaluation sheets for analyzing Latino children's books for stereotypes, and a bingo sheet for professional development related to library services for Latinos and Latino children

"Experiencias offers carefully sequenced activities, pre-tested in the authors' own classes, that focus on personal interaction and real communication. All face-to-face activities are easily adaptable for digital environments and writing assignments. Recycling Throughout both volumes, Experiencias incorporates activities that recycle previously learned material but with new topics, which allows students to continue mastering vocabulary and structures encountered earlier in the program"--

Provides entries for important writers, literary schools, and cultural movements in Mexican literary history, discussing major works, biographical sketches, and more

During the early days of the Great Depression, New York City's first Puerto Rican librarian, Pura Belpr â e, introduces the public library to immigrants living in El Barrio and hosts the neighborhood's first Three Kings' Day fiesta.

A seven-year project developing and testing cuento therapy, a form of child psychotherapy in which Puerto Rican mothers recount to their children folktales taken from Puerto Rican culture, is described and evaluated in this monograph. Chapter 1 explains how the research presented in later chapters fits into substantially broader patterns of research focusing on the treatment of the psychological problems of Hispanic populations living in the United States. Chapter 2 presents an interdisciplinary discussion of traditional folk-healing practices in Puerto Rico, the function of folktales throughout history, the use of storytelling in psychotherapy, the theoretical framework of cuentro therapy, and the mother's role in the therapy. Chapter 3 presents the methodological procedures used in conducting cuento therapy and in evaluating treatment outcomes. Chapter 4 provides results of an analysis of treatment effects on trait anxiety, cognition role-playing observations, and personality profiles. Finally, Chapter 5 presents a general overview of the clinical utility of cuento therapy. The major finding was that cuento therapy was effective in reducing trait anxiety. It also improved cognitive skills relating to social judgment and had some effect on aggressive behavior as observed in role-playing situations. Its effect upon children's personality development was unclear, but its sensitivity to the clients', not the therapists', cultural background should be useful to community mental health centers serving Puerto Rican clients. (KH)

Cuban Studies has been published annually by the University of Pittsburgh Press since 1985. Founded in 1970, it is the preeminent journal for scholarly work on Cuba. Each volume includes articles in both English and Spanish, a large book review section, and an exhaustive compilation of recent works in the field. Widely praised for its interdisciplinary approach and trenchant analysis of an array of topics, each volume features the best scholarship in the humanities and social sciences. Cuban Studies 37 includes articles on environmental law, economics, African influence in music, irreverent humor in postrevolutionary fiction, international education flow between the United States and Cuba, and poetry, among others. Beginning with volume 34 (2003), the publication is available electronically through Project MUSE ® , an award-winning online database of full-text scholarly journals. More information can be found at http://muse.jhu.edu/publishers/pitt_press/.
