Everything You Need to Know about Effectively Administering a British Columbia Estate. The Heritage Trust Estate Administration Boot Camp guide is a comprehensive and practical resource designed to assist an executor or administrator of a BC estate, from start to finish. From making funeral arrangements to the final distribution, this guide offers a detailed look at the responsibilities and potential liabilities associated with administering a BC estate, including: - Definitions of key concepts and terms - Initial responsibilities, including arranging the funeral and dealing with remains - How to prepare and apply for letters probate and letters of administration - How to prepare an inventory of assets and debts of the estate - Income tax basics - Estate accounting basics - Your role as trustee - Distribution of the estate - Compensation for the personal representatives - Estates of Indigenous People - And further resources available This practical guide will be indispensable for executors and administrators in BC.

The OECD Anti-Bribery Convention focuses on enforcement through the criminalisation of foreign bribery but it is multidisciplinary and includes key requirements to combat money laundering, accounting fraud, and tax evasion connected to foreign bribery. The first step, however, in enforcing foreign bribery and related offences is effective detection. This study looks at the primary sources of detection for the foreign bribery offence and the role that certain public agencies and private sector actors can play in uncovering this crime. It examines the practices developed in different sectors and countries which have led to the successful detection of foreign bribery with a view to sharing good practices and improving countries ’ capacity to detect and ultimately step-up efforts against transnational bribery. The study covers a wide range of potential sources for detecting foreign bribery: self-reporting; whistleblowers and whistleblower protection; confidential informants and cooperating witnesses; media and investigative journalism; tax authorities; financial intelligence units; other government agencies; criminal and other legal proceedings; international co-operation and professional advisers.

While Americans are generally aware of China ’ s ambitions as a global economic and military superpower, few understand just how deeply and assertively that country has already sought to influence American society. As the authors of this volume write, it is time for a wake-up call. In documenting the extent of Beijing ’ s expanding influence operations inside the United States, they aim to raise awareness of China ’ s efforts to penetrate and sway a range of American institutions: state and local governments, academic institutions, think tanks, media, and businesses. And they highlight other aspects of the propagandistic “ discourse war ” waged by the Chinese government and Communist Party leaders that are less expected and more alarming, such as their view of Chinese Americans as members of a worldwide Chinese diaspora that owes undefined allegiance to the so-called Motherland.Featuring ideas and policy proposals from leading China specialists, China ’ s Influence and American Interests argues that a successful future relationship requires a rebalancing toward greater transparency, reciprocity, and fairness. Throughout, the authors also strongly state the importance of avoiding casting aspersions on Chinese and on Chinese Americans, who constitute a vital portion of American society. But if the United States is to fare well in this increasingly adversarial relationship with China, Americans must have a far better sense of that country ’ s ambitions and methods than they do now.

This report presents international investment trends and prospects at global, regional and national levels, as well as the evolution of international production and global value chains. It analyses the latest developments in new policy measures for investment promotion, facilitation and regulation around the world, as well as updates on investment treaties, their reform and investment dispute settlement cases. It provides an overview of industrial policy models for countries at different development levels and the role of investment policies within each model. It analyses the investment policy implications of the new industrial revolution for high-, middle- and low-income countries and offers a toolkit for investment policymakers on how to use investment policies for new industrial development strategies.

This report discusses fiscal trends in policies aimed at reducing fiscal vulnerabilities and boosting medium-term growth, recent fiscal developments and the fiscal outlook in advanced economies, emerging markets, and low-income developing countries; recent trends in government debt and analysis of changes in fiscal balances, revenue, and spending; potential fiscal risks; and growth from the fiscal policies. It also describes how digitalization can help governments improve implementation of current policy and widen the range of policy options, and opportunities and risks for fiscal policy, including improvements in policy implementation, the design of future policy, and how digitalization can create opportunities for fraud and increase government vulnerabilities.

“ A good read for anyone who wants to understand what actually determines whether a developing economy will succeed ” (Bill Gates, “ Top 5 Books of the Year ”). An Economist Best Book of the Year from a reporter who has spent two decades in the region, and who The Financial Times said “ should be named chief myth-buster for Asian business. ” In How Asia Works, Joe Studwell distills his extensive research into the economies of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished. Studwell ’ s in-depth analysis focuses on three main areas: land policy, manufacturing, and finance. Land reform has been essential to the success of Asian economies, giving a kick-start to development by utilizing a large workforce and providing capital for growth. With manufacturing, industrial development alone is not sufficient. Studwell argues. Instead, countries need “ export discipline, ” a government that forces companies to compete on the global scale. And in finance, effective regulation is essential for fostering, and sustaining growth. To explore all of these subjects, Studwell journeys far and wide, drawing on fascinating examples from a Philippine sugar baron ’ s stifling of reform to the explosive growth at a Korean steel mill. “ Provocative . . . How Asia Works is a striking and enlightening book . . . A lively mix of scholarship, reporting and polemic. ” —The Economist

This report is designed to provide Congress with a perspective on the contemporary political system of China, the only Communist Party-led authoritarian state in the G-20 grouping of major economies. China's Communist Party dominates state and society in China, is committed to maintaining a permanent monopoly on power, and is intolerant of those who question its right to rule. Nonetheless, analysts consider China's political system to be neither monolithic nor rigidly hierarchical. Jockeying among leaders and institutions representing different sets of interests is common at every level of the system.
