industry encourages men to invest more in their appearance, it still relies on women to do much of the work. Styling Masculinity investigates how men's beauty salons have persuaded their clientele to regard

them as masculine spaces. To answer this question, sociologist Kristen Barber goes inside Adonis and The Executive, two upscale men's salons in Southern California. Conducting detailed observations and

extensive interviews with both customers and employees, she shows how female salon workers not only perform the physical labor of snipping, tweezing, waxing, and exfoliating, but also perform the emotional

Acces PDF 2015 2016 Nails Magazine

labor of pampering their clients and pumping up their masculine egos. Letting salon employees tell their own stories, Barber not only documents occasions when these workers are objectified and demeaned,

but also explores how their jobs allow for creativity and confer a degree of professional dignity. In the process, she traces the vast network of economic and social relations that undergird the burgeoning

Who are Asian Americans?
Moving beyond popular
stereotypes of the “model
minority” or “forever
foreigner,” most Americans

Page 89/99

Acces PDF 2015 2016 Nails Magazine

know surprisingly little of the nation's fastest growing minority population. Since the 1960s, when different Asian immigrant groups came together under the "Asian American" umbrella, they have tirelessly carved out

their presence in the labor market, education, politics, and pop culture. Many times, they have done so in the face of racism, discrimination, sexism, homophobia, and socioeconomic disadvantage.

Today, contemporary Asian America has emerged as an incredibly diverse population, with each segment of the community facing its unique challenges. When Contemporary Asian America

was first published in 2000, it exposed its readers to the formation and development of Asian American studies as an academic field of study, from its inception as part of the ethnic consciousness

interdisciplinary research and approaches from a social science perspective to assess the effects of immigration, community development, and socialization on Asian American communities. This

intersection of race, gender, sexuality, and class on the experiences of Asian immigrants and their children. The volume also provides study questions and recommended supplementary readings and documentary
