Because of its affordable price and ease of use it is the most common folk instrument in Ireland, and is often the instrument of choice for beginners and children. The tunes in this book, and in the other books of the collection, were chosen and arranged to allow even an absolute beginner to start playing straight away, without any technical knowledge of sheet music or musical theory. Fingering tablatures are provided with every tune; an accompanying audio CD of the tunes in the book is also available, and is even recommended to favour learning by ear.

Author Steve Marsh has spent many years playing guitar in the folk clubs of the United Kingdom where Irish music is in abundance. This collection draws from his extensive collection of original arrangements of traditional tunes. the songs vary in style and can be grouped into sets for use in a recital program. Many of the folk songs have been handed down from generation to generation so several versions of a song may exist. Therefore, the author has taken a few liberties with the tempo and rhythmic structures of a limited number of tunes in this collection. In general, the pieces in this album range from moderate standard to difficult. In standard notation only.
