All Things Made New shows Diarmaid MacCulloch at his best - learned, far-seeing, sometimes subversive, and often witty. At the end of his essay on the great Elizabethan divine Richard Hooker, he writes 'The disputes which currently wrack Western Christianity are superficially about sexuality, social conduct or leadership style: at root, they are about what constitutes authority for Christians.

His most recent book All Things Made New: Writings on the Reformation is an intriguing and somewhat unusual addition to these earlier books. In 22 short chapters, MacCulloch revisits the last 20 years of scholarly production, bringing together a collection of previously published pieces into a coherent volume that takes readers from the early reforms of Henry VIII to the development of Anglicanism in the second half of the 17th century.

The most profound characteristic of Western Europe in the Middle Ages was its cultural and religious unity, a unity secured by a common alignment with the Pope in Rome, and a common language - Latin - for worship and scholarship. The Reformation shattered that unity, and the consequences are still with us today. In *All Things Made New*, Diarmaid MacCulloch, author of the New York Times bestseller *Christianity: The First Three Thousand Years*, examines not only the Reformation's impact across Europe, but also the Catholic Counter-Reformation and the special evolution of religion in England, revealing how one of the most turbulent, bloody, and transformational events in Western history has shaped modern society. The Reformation may have launched a social revolution, MacCulloch argues, but it was not caused by social and economic forces, or even by a secular idea like nationalism; it sprang from a big idea about death, salvation, and the afterlife. This idea - that salvation was entirely in God's hands and there was nothing humans could do to alter his decision - ended the Catholic Church's monopoly in Europe and altered the trajectory of the entire future of the West. By turns passionate, funny, meditative, and subversive, *All Things Made New* takes readers onto fascinating new ground, exploring the original conflicts of the Reformation and cutting through prejudices that continue to distort popular conceptions of a religious divide still with us after five centuries. This monumental work, from one of the most distinguished scholars of Christianity writing today, explores the ways in which historians

have told the tale of the Reformation, why their interpretations have changed so dramatically over time, and ultimately, how the contested legacy of this revolution continues to impact the world today.

This book presents the vision of the faith. The most important teachings of Baha'u'llah and the chief facts of Baha'i history are included.

Numerous stories are told from John Flavel's life of how people 'happened to meet him' and came away deeply thankful to God, full of resolve to walk with Christ as a result. The same is true of encounters made with Flavel's writings, as in *All Things Made New*. Flavel spent almost his entire ministry in a busy town serving working people. He believed that the gospel impacts and shapes every thought, every feeling, every ambition, emotion, desire, success, tragedy and joy. Christ makes all things new for the believer, and teaches us to follow him with confidence, until that day when he truly renews all things. To read Flavel is to catch and to be changed by the same vision. Selected and Edited by Lewis Allen.

looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West. The volume also considers Mary in Islam and pilgrimages shared by Christian, Muslim, and Jewish adherents. While Mary can be a source of theological disagreement, this authoritative collection shows Mary's rich potential for inter-faith and inter-denominational dialogue and shared experience. It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion. Newly-commissioned essays describe some of the central ideas of Christian Marian thought, while also challenging popularly-held notions. This invaluable reference for students and scholars illustrates the current state of play in Marian Studies as it is done across the world.

THE work of Irenæus *Against Heresies* is one of the most precious remains of early Christian antiquity. It is devoted, on the one hand, to an account and refutation of those multiform Gnostic heresies which prevailed in the latter half of the second century; and, on the other hand, to an exposition and defence of the Catholic faith.

The Epistle of Barnabas contains no clue to its author nor to those for whom it was intended. Its aim is to impart to its readers the perfect wisdom (gnosis), that is an exact knowledge of the economy of salvation. It is made up of two parts, the subject of each being announced in verses 6 and 7 of the first chapter. The first part (ch. i-v, 4) is hortatory; in the evil days that are now at hand in which the end of the world and the Judgment shall appear, the faithful, freed from the bonds of the Jewish ceremonial law, are to practise the virtues and to flee from sin. The second part (ch. v, 5-xvii) is more speculative, although it tends, owing to the nature of the argument,

to establish the freedom of Christians in respect to the Mosaic regulations. The author wishes to make his readers comprehend the real nature of the Old Testament. He shows how the ordinances of the Law should be understood as referring allegorically to the Christian virtues and institutions, and he pauses to make plain by a series of symbolical explanations, that are often singular, how the Old Testament prefigures Christ, His Passion, His Church, etc. Before concluding (ch. xxi) the author repeats and enlarges the exhortations of the first part of the epistle by borrowing from another document (the Didache or its source) the description of the two ways, the way of light and that of darkness (xviii-xx).
