About the CERT
Basic Training - If
available, emergency
services personnel
are the best trained
and equipped to
handle emergencies.
Following a

File Type PDF Basic Training

catastrophic disaster, however, you and your community may be isolated for an extended period for a myriad of reasons, including the size of the area affected, inoperable communications systems, or unpassable roads. CERT Basic Training prepares you to help

File Type PDF Basic Training

yourself and help others in the event of a catastrophic disaster. Because emergency services personnel will not be able to help everyone immediately, you can make a difference by using your CERT training to save lives and protect property. This training covers basic skills that are

File Type PDF Basic Training

Participant Manual FEMA
Gov Federal

important to know in a disaster when emergency services are not available. With training and practice, and by working as a team, you will be able to protect yourself and maximize your capability to help for the greatest number of people after a disaster.

Audience: As each

File Type PDF Basic Training

CERT is organized and trained in accordance with standard operating procedures developed by the sponsoring agency, its members select an Incident Commander/Team Leader (IC/TL) and an alternate and identify a meeting location, or staging area, to be used in the event of a

File Type PDF Basic Training

disaster. This publication is ideal for the chosen IC/TL, and members of the CERT may want to consult this manual to understand the responsibilities of the IC/TL.

Meant to aid State & local emergency managers in their efforts to develop &

File Type PDF Basic Training

maintain a viable all-hazard emergency operations plan. This guide clarifies the preparedness, response, & short-term recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment & recommendations on

File Type PDF Basic Training

How to deal with the entire planning process -- from forming a planning team to writing the plan. Specific topics of discussion include: preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex

File Type PDF Basic Training

content, hazard-
unique planning, &
linking Federal &
State operations.

Comprehensive
Preparedness Guide
(CPG) 101 provides
Federal Emergency
Management Agency
(FEMA) guidance on
the fundamentals of
planning and
developing

File Type PDF Basic Training

Emergency operations plans (EOP). CPG 101 shows that EOPs are connected to planning efforts in the areas of prevention, protection, response, recovery, and mitigation. Version 2.0 of this Guide expands on these fundamentals and encourages emergency and

File Type PDF Basic Training

homeland security managers to engage the whole community in addressing all risks that might impact their jurisdictions. While CPG 101 maintains its link to previous guidance, it also reflects the reality of the current operational planning environment. This Guide integrates key

File Type PDF Basic Training

Participant
Manual FEMA
Gov Federal

Concepts from national preparedness policies and doctrines, as well as lessons learned from disasters, major incidents, national assessments, and grant programs. CPG 101 provides methods for planners to:

- Conduct community-based planning that engages the whole

File Type PDF

Basic Training

Community by using a planning process that represents the actual population in the community and involves community leaders and the private sector in the planning process;
Ensure plans are developed through an analysis of risk;
Identify operational assumptions and

File Type PDF Basic Training

Participant demands;
Prioritize plans and
planning efforts to
support their
seamless transition
from development to
execution for any
threat or hazard;
Integrate and
synchronize efforts
across all levels of
government. CPG
101 incorporates the
following concepts

File Type PDF Basic Training

from operational
planning research and
day-to-day
experience: The
process of planning is
just as important as
the resulting
document; Plans are
not scripts followed to
the letter, but are
flexible and adaptable
to the actual situation;
Effective plans
convey the goals and

File Type PDF Basic Training

objectives of the intended operation and the actions needed to achieve them. Successful operations occur when organizations know their roles, understand how they fit into the overall plan, and are able to execute the plan.

Comprehensive
Preparedness Guide

File Type PDF Basic Training

(CPG) 101 provides guidelines on developing emergency operations plans (EOP). It promotes a common understanding of the fundamentals of risk-informed planning and decision making to help planners examine a hazard or threat and produce integrated,

File Type PDF Basic Training

coordinated, and
synchronized plans.
The goal of CPG 101
is to make the
planning process
routine across all
phases of emergency
management and for
all homeland security
mission areas. This
Guide helps planners
at all levels of
government in their
efforts to develop and

File Type PDF Basic Training

maintain viable all-hazards, all-threats EOPs. Accomplished properly, planning provides a methodical way to engage the whole community in thinking through the life cycle of a potential crisis, determining required capabilities, and establishing a framework for roles and responsibilities. It

File Type PDF Basic Training

shapes how a community envisions and shares a desired outcome, selects effective ways to achieve it, and communicates expected results. Each jurisdiction's plans must reflect what that community will do to address its specific risks with the unique resources it

File Type PDF Basic Training

has or can obtain.

Planners achieve unity of purpose through coordination and integration of plans across all levels of government, nongovernmental organizations, the private sector, and individuals and families. This supports the fundamental principle

File Type PDF Basic Training

that, in many situations, emergency management and homeland security operations start at the local level and expand to include Federal, state, territorial, tribal, regional, and private sector assets as the affected jurisdiction requires additional resources and capabilities. A shared

File Type PDF Basic Training

Participant
Manual FEMA
Gov Federal

planning community increases the likelihood of integration and synchronization, makes planning cycles more efficient and effective, and makes plan maintenance easier.

CERT (Community Emergency Response Team) is a critical

File Type PDF Basic Training

Participant Manual FEMA
Gov Federal

program in the effort to engage everyone in America in making their communities safer, more prepared, and more resilient when incidents occur. Community-based preparedness planning allows us all to prepare for and respond to anticipated disruptions and potential hazards

File Type PDF Basic Training

following a disaster.

As individuals, we can prepare our homes and families to cope during that critical period. Through pre-event planning, neighborhoods and worksites can also work together to help reduce injuries, loss of lives, and property damage.

Neighborhood

File Type PDF Basic Training

preparedness will enhance the ability of individuals and neighborhoods to reduce their emergency needs and to manage their existing resources until professional assistance becomes available. Studies of behavior following disasters have shown that groups working

File Type PDF Basic Training

together in the disaster period perform more effectively if there has been prior planning and training for disaster response. These studies also show that organized grassroots efforts may be more successful if they are woven into the social and political fabric of the

File Type PDF Basic Training

community--
neighborhood
associations, schools,
workplaces, places of
worship, and other
existing organizations.
Effective response
therefore requires
comprehensive
planning and
coordination of all
who will be
involved--government,
volunteer groups,

File Type PDF Basic Training

private businesses, schools, and community organizations. With training and information, individuals and community groups can be prepared to serve as a crucial resource capable of performing many of the emergency functions needed in

File Type PDF Basic Training

the immediate post-disaster period. The CERT Program is designed to train individuals to be assets to help communities prepare for effective disaster response. Audience: Effective response therefore requires comprehensive planning and coordination of all

File Type PDF Basic Training

Participant
