After threading the Bernette 334D several times, we decided to play with several different thicknesses of fabric and different types of threads in order to get the hang of adjusting the presser foot and tension on a serger. The presser foot adjustment screw rests on top of the Bernina Bernette 334D serger.

Fully illustrated step-by-step instruction on everything from hemming knits and sewing necklines to jeans making and sewing underwear. Includes chapters on accessories, needles, thread and troubleshooting.
#1 New York Times Bestseller At last, a book that shows you how to build—design—a life you can thrive in, at any age or stage Designers create worlds and solve problems using design thinking. Look around your office or home—at the tablet or smartphone you may be holding or the chair you are sitting in. Everything in our lives was designed by someone. And every design starts with a problem that a designer or team of designers seeks to solve. In this book, Bill Burnett and Dave Evans show us how design thinking can help us create a life that is both meaningful and fulfilling, regardless of who or where we are, what we do or have done for a living, or how young or old we are. The same design thinking responsible for amazing technology, products, and spaces can be used to design and build your career and your life, a life of fulfillment and joy, constantly creative and productive, one that always holds the possibility of surprise. “Designing Your Life walks readers through the process of building a satisfying, meaningful life by approaching the challenge the way a designer would. Experimentation. Wayfinding. Prototyping. Constant iteration. You should read the book. Everyone else will.” —Daniel Pink, bestselling author of Drive “This [is] the career book of the next decade and . . . the go-to book that is read as a rite of passage whenever someone is ready to create a life they love.” —David Kelley, Founder of IDEO “An empowering book based on their popular class of the same name at Stanford University . . . Perhaps the book ’ s most important lesson is that the only failure is settling for a life that makes one unhappy. With useful fact-finding exercises, an empathetic tone, and sensible advice, this book will easily earn a place among career-finding classics.” —Publishers Weekly
Sew modern quilts that illuminate your life with the help of gorgeous ombré fabrics. In this book, designer Jennifer Sampou shows you how to make ombré fabric work for you, with six brilliant quilt projects featuring her Sky Collection fabric. Easy large-scale piecing shows the entire ombré gradation, while smaller-pieced quilts let colors dance and glow in hundreds of hues, tints, and tones! With a single fabric containing subtle shifts from pale to dark, color feels exciting and new again. Take advantage of digitally-printed yardage that ’ s now widely available, with hundreds of colors printed on a single yard.

Make your next quilt come alive with color! Whether it’s a Bostom Commons, Trip Around the World, Nine Patch, or Irish Chain, best-selling author Blanche Young and her daughter Dalene Young Stone show you how to give your favorite traditional quilt a new twist through the creative use of fabric. This delightful book has over 26 projects showing new streamlined construction techniques utilizing the rotary cutter and your sewing machine. The older methods are still valid, but the new techniques presented in this book were developed to use with the tools available to us today.

Sewing Activewear: How to make your own professional-looking athletic wear takes you through all the fundamentals and then move you to the next level. So that you will be fully equipped and empowered to create your own workout wardrobe-that is both functional and stylish.
