Blackboard Learn 9.1 Q4 2019. With this release, Blackboard Learn will remember instructors' preferences for the Show attempts that don't contribute to user's grade filter on the Needs Grading page. By default, the checkbox is unselected and student attempts that don't affect grades won't show on the Needs Grading list. When an instructor changes the setting, Learn will remember the preference across that user's sessions and courses.

Build and deliver great courses using this popular Learning Management System.

Presenting a series of research papers on image processing and communications, this book not only provides a summary of currently available technologies but also outlines potential future solutions in these areas. Gathering the proceedings of the 9th International Conference on Image Processing and Communications (IP&C 2017), held in Bydgoszcz, Poland, on September 13–14, 2017, the book is divided into three parts. Part I addresses image processing, offering a comprehensive survey of different methods of image processing and discussing computer vision. In turn, Part II presents novel works in algorithms and methods and showcases formal and practical advances. Lastly, Part III examines networks, communications and a diverse range of applications.

The technical resources, budgets, curriculum, and profile of the student body are all factors that play in implementing course design. Learning management systems administrate these aspects for the development of new methods for course delivery and corresponding instructional design. Learning Management Systems and Instructional

Design: Best Practices in Online Education provides an overview on the connection between learning management systems and the variety of instructional design models and methods of course delivery. This book is a useful source for administrators, faculty, instructional designers, course developers, and businesses interested in the technological solutions and methods of online education.

The evolution of information technologies, mobile devices, and social media as well as the needs of students, workers, and academics have experienced rapid changes in the past several years. This complex and dynamic reality requires new forms of delivery of learning content to students, the building of special learning environments, and new teaching methodologies for academics. Opening Up Education for Inclusivity Across Digital Economies and Societies is an essential reference source that aims to foster the international exchange of academic insights and approaches in order to broaden visibility in the development of technology for education, establish an international platform for interactions on information technology and application in education, accelerate innovation in education technology, and analyze the latest achievements and progress in new and emerging information technology for education with a special focus on higher education institutions. The book addresses applications of technology use and

digital competence development in education systems around the world including both specific uses in classrooms and broader uses in national and regional policies. The book is ideally designed for educators, administrators, policymakers, managers, politicians, and academicians.

People are the most important resource for today's organizations. Organizations must invest in their employees to sustain a competitive advantage and achieve their strategic objectives. Strategic Training and Development translates theory and research into best practices for improving employee knowledge, skills, and behaviors in the workplace. Authors Robyn A. Berkley and David M. Kaplan take a holistic and experiential approach, providing ample practice opportunities for students. A strong focus on technology, ethics, legal issues, diversity and inclusion, and succession helps prepare students to succeed in today's business environment.

This book constitutes the refereed proceedings of the 18th Nordic Conference on Secure IT Systems, NordSec 2013, held in Ilulissat, Greenland, in October 2013. The 18 revised regular papers together
