To what extent can and should people participate

# Acces PDF Client Penguin

in dealing with the personal problems they bring to consulting professionals? This book presents two alternative models for the conduct of such professional-client relationships as those between lawyers and clients and doctors and patients. One model, called the traditional, prescribes a role of minimal participation for

# Acces PDF Client Penguin

the client. The other, called the participatory, prescribes a role of decision-making shared by the client and the professional. After presenting the two models and their implications, the book systematically tests their validity in a case study of the lawyer-client relationship in the making of personal

injury claims. The distinctive feature of this work is a sophisticated and objective test of the traditional proposition that passive clients get better results than active clients. Evidence drawn from a sample of actual cases of personal injury claimants reveals that active clients in fact fare significantly better than passive clients. The book

# Acces PDF Client Penguin

is important and novel in four respects: it offers the first clear and realistic proposal for increasing the control people can have over the complex problems they bring to professionals; it presents concrete evidence that lay participation in complex decision making need not be inefficient; it gives practical advice to clients
