The Author is a
Chartered Surveyor and
Arbitrator and has been
in the Quantity
Surveying field for the
last 40 years. The book
deals with construction
irregularities, frauds and
the necessity for
Technical Auditing of
construction projects.

Download Free Constructing A

The construction industry is huge expanding and expected to reach in excess of US \$ 12 Trillion by 2020. The bulk of this amounts shall come from emerging markets and from public money. Still

Construction Auditing is practically performed by Accountants in all parts of the world. The Author feels that this should be

Download Free Constructing A

done by Engineers with proper training and accreditation. Further, the Author feels that there is a necessity to spend at least one dollar for auditing for every thousand dollars spent to see whether the money is spent wisely. This is very important in case of public money. The construction industry as a whole is infested with

This open access book provides an alternative theoretical framework of irregular migration that allows to overcome many of the contradictions and theoretical impasses displayed by the majority of approaches in current literature. The analytical framework allows

Download Free Constructing A

moving from an interpretation biased by methodological nationalism, to a more general systemic interpretation. It explains irregular migration as a structural phenomenon or contemporary society, and why state policies are greatly ineffective in their attempt to control irregular migration. It also explains irregular

Download Free Constructing A

migration as a diversified phenomenon that relates to the social characteristics of the context, and why states accept irregular migrants. By providing new comparative, empirical, qualitative material which allows to start filling an evident gap in the current research on irregular migration, this book is of interest to graduate
