The book is based on "Dark Alliance", Webb's three-part investigative series published in the San Jose Mercury News in August 1996. Dark Alliance prompted an investigation by the CIA Inspector General, the Hitz report. According to most newspapers, the Hitz report "proved" that the CIA wasn't complicit in drug trafficking. However, the Hitz report is now public information and any independent-minded reader will see that the CIA, along with other US government agencies, were closely linked with several major drug traffickers.

the world with a series of articles in the San Jose Mercury News reporting the results of his year-long investigation into the roots of the crack cocaine epidemic in America, specifically in Los Angeles. The series, titled “Dark Alliance,” revealed that for the better part of a decade, a Bay Area drug ring sold tons of cocaine to Los Angeles street gangs and funneled millions in drug profits to the CIA-backed Nicaraguan Contras. Gary Webb pushed his investigation even further in his book, *Dark Alliance: The CIA, The Contras, and the Crack Cocaine Explosion*. than-fiction experience is also woven into the book. His excoriation by the media—not because of any wrongdoing on his part, but by an insidious process of innuendo and suggestion that in effect blamed Webb for the implications of the story—had been all but predicted. Webb was warned off doing a CIA expose by a former Associated Press journalist who lost his job when, years before, he had stumbled onto the germ of the “Dark Alliance” story. And though Internal investigations by both the CIA and the Justice Department eventually vindicated Webb, he had by then been pushed out of the Mercury News and gone to work for the California State Legislature Task Force on Government Oversight. He died in 2004.

Soon to be a major motion picture! Kill the Messenger tells the story of the tragic death of Gary Webb, the controversial newspaper reporter who committed suicide in December 2004. Webb is the former San Jose Mercury News reporter whose 1996 "Dark Alliance" series on the so-called CIA-crack cocaine connection created a firestorm of controversy and led to his resignation from the paper amid escalating attacks on his work by the mainstream media. Author and investigative journalist Nick Schou published numerous articles on the controversy and was the only reporter to significantly advance Webb's stories. Drawing on exhaustive

research and highly personal interviews with Webb's family, colleagues, supporters and critics, this book argues convincingly that Webb's editors betrayed him, despite mounting evidence that his stories were correct. *Kill the Messenger* examines the "Dark Alliance" controversy, what it says about the current state of journalism in America, and how it led Webb to ultimately take his own life. Webb's widow, Susan Bell, remains an ardent defender of her ex-husband. By combining her story with a probing examination of the one of the most important media scandals in recent memory, this book provides a gripping view of one of the greatest tragedies in the annals of investigative journalism.

A shocking expose of the CIA's role as drug baron. On March 18, 1998, the CIA's Inspector General, Fred Hitz, told astounded US Reps that the CIA had maintained relationships with companies and individuals that the Agency knew to be involved in the drug business. More shocking was the revelation that the CIA had received from Reagan's Justice Department clearance not to report any knowledge it might have of drug-dealing by CIA assets. Many years' worth of CIA denials, much of it under oath to Congress, were sunk. Hitz's admissions made fools of some of the most prominent names in US journalism and vindicated others that had been ruined. Particularly resonant was the case of the San Jose Mercury News, which published a sensational series on CIA involvement in the smuggling of cocaine into black urban neighborhoods, and then under pressure conspired in the destruction

of its own reporter, Gary Webb. In *Whiteout*, Alexander Cockburn and Jeffrey St. Clair finally put the whole story together, from the earliest days, when the CIA's institutional ancestors cut a deal with America's premier gangster and drug trafficker, Lucky Luciano. This is a thrilling history that stretches from Sicily in 1944 to the killing fields of Laos and Vietnam, to CIA safe houses in Greenwich Village and San Francisco where CIA men watched Agency-paid prostitutes feed LSD to unsuspecting clients. We meet Oliver North, as he plotted with Manuel Noriega and Central American gangsters. We travel to little-known airports in Costa Rica and Arkansas. We hear from drug pilots and accountants from the Cali Cartel. We learn of DEA agents whose careers were ruined because they tried to tell the truth. Cockburn and St. Clair show how the CIA's complicity with drug-dealing criminal gangs was

part and parcel of its attacks on labor organizers, whether on the docks of New York, Marseilles, or Shanghai. They trace how the Cold War and counter-insurgency led to an alliance between the Agency and the vilest of war criminals like Klaus Barbie, or fanatic opium traders like the mujahedin in Afghanistan. Cockburn and St. Clair horrifyingly affirm charges of outraged black communities that the CIA had undertaken enduring programs of experiments on minorities. They show that the CIA imported Nazi scientists straight from their labs at Dachau and Buchenwald and set to work, developing chemical and biological agents, tested on blacks, some of them in mental hospitals. Cockburn and St. Clair dissect the shameful way American journalists have not only turned a blind eye to the Agency's misdeeds, but also helped plunge the knife into those who tried to tell the truth. Whiteout is a richly detailed excavation of the CIA's dirtiest secrets. For anyone who wants to know the real truth about the Agency, this is the book to start with.

Gary Webb had an inborn journalistic tendency to track down corruption and expose it. For over thirty-four years, he wrote stories about corruption from county, state, and federal levels. He had an almost magnetic effect to these kinds of stories, and it was almost as if the stories found him. It was his gift, and, ultimately, it was his downfall. He was best known for his story *Dark Alliance*, written for the *San Jose Mercury News* in 1996. In it Webb linked the CIA to the crack-cocaine epidemic in Los Angeles during the Iran Contra scandal. His only published book, *Dark Alliance* is still a classic of contemporary journalism. But his life consisted of much

more than this one story, and *The Killing Game* is a collection of his best investigative stories from his beginning at the Kentucky Post to his end at the Sacramento News & Review. It includes Webb's series at the Kentucky Post on organized crime in the coal industry, at the Cleveland Plain Dealer on Ohio State's negligent medical board, and on the US military's funding of first-person shooter video games. *The Killing Game* is a dedication to his life's work outside of *Dark Alliance*, and it's an exhibition of investigative journalism in its truest form.

Racing across a landscape spanning the legendary Berlin Base of the ’50s, the Soviet invasion of Hungary, the Bay of Pigs, Afghanistan, and the Gorbachev putsch, *The Company* tells the thrilling story of agents imprisoned in double lives, fighting an amoral, elusive, formidable enemy—and each other—in an internecine battle within the Company itself.
