The Prophet is a book of 26 prose poetry fables written in English by the Lebanese-American poet and writer Kahlil Gibran. It was originally published in 1923 by Alfred A. Knopf. It is Gibran's best known work. The Prophet has been translated into over 100 different languages, making it one of the most translated books in history, and it has never been out of print. The prophet, Al Mustafa, has lived in the city of Orphalese for 12 years and is about to board a ship which will carry him home. He is stopped by a group of people, with whom he discusses topics such as life and the human condition. The book is divided into chapters dealing with love, marriage, children, giving, eating and drinking, work, joy and sorrow, houses, clothes, buying and selling, crime and punishment, laws, freedom, reason and passion, pain, self-knowledge, teaching, friendship, talking, time, good and evil, prayer, pleasure, beauty, religion, and death. The tragic story of the friendship between two migrant workers, George and mentally retarded Lenny, and their dream of owning a farm

Animal Farm is an allegorical novella by George Orwell. The book tells the story of a group of farm animals who rebel against their human farmer, hoping to create a society where the animals can be equal, free, and happy. Ultimately, however, the rebellion is betrayed, and the farm ends up in a state as bad as it was before, under the dictatorship of a pig named Napoleon. One night, all the animals at Mr. Jones ' Manor Farm assemble in a barn to hear old Major, a pig, describe a dream he had about a world where all animals live free from the tyranny of their human masters. old Major dies soon after the meeting, but the animals — inspired by his philosophy of Animalism — plot a rebellion against Jones. Two pigs, Snowball and Napoleon, prove themselves important figures and planners of this dangerous enterprise. When Jones forgets to feed the animals, the revolution occurs, and Jones and his men are chased off the farm. Manor Farm is renamed Animal Farm, and the Seven Commandments of Animalism are painted on the barn wall...

English Literature in the 1960s soon threw off its post-war weariness and the tepid influences of the previous decade. New voices, new

visions, and new commitments profoundly reshaped writing during the 60s, and throughout the rest of the century. Drama thrived on its rapidly rebuilt foundations. New freedoms of style and form revitalised fiction. Poetry, too, gradually recovered the variety and inventiveness of earlier years. As well as comprehensively charting these changes in the literary field, Randall Stevenson persuasively pinpoints their origins in the historical, social, and intellectual pressures of the times. Literary developments are revealingly related to the wider evolution and profound changes in English experience in the late twentieth-century to shadows of war and loss of empire; declining influences of class; shifting relations between the genders; emergent minority and counter-cultures; and the broadening democratization of contemporary life in general. Analyses of the rise of literary theory, of publishing and the book trade, and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough, insightful description of writing in the later twentieth-century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised. Lucid, accessible, and engaging, this volume of the Oxford English Literary History presents a unique illumination of its age - one we have lived through, but are only just beginning to understand. The first full account of its period, it will set the agenda for discussion of late twentieth-century literature for many years to come.

This book places children's literature at the forefront of early twentieth-century debates about national identity and class relations that were expressed through the pursuit of leisure. Focusing on stories about hiking, camping and sailing, this book offers a fresh insight into a popular period of modern British cultural and political history.

More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.
