Duck On A Bike

The book is basically this: Duck learns how to ride a bike and goes on a ride around the farm. Each farm animal makes a comment as duck rides by on the bike. The animal's comments range from cautions (watch where you are going) to some that sound mocking (show-off, not as fast as me) to more positive (wishing they could ride too), to silly (wanting to eat a bike).

A duck decides to ride a bike and soon influences all the other animals on the farm to ride bikes too.

One day down on the farm, Duck got a wild idea. "I bet I could ride a bike," he thought. He waddled over to where the boy parked his bike, climbed on and began to ride. At first he rode slowly and he wobbled a lot, but it was fun! Duck rode past Cow and waved to her. "Hello, Cow!" said Duck. "Moo," said Cow. But what she thought was, "A duck on a bike? That's the silliest thing I've ever seen!" And so Duck rides past sheep, horse, and all the other barnyard animals. Suddenly, a group of kids ride by on their bikes and run into the farmhouse, leaving the bikes outside. Now ALL the animals can ride bikes, just like Duck!

Caldecott Honor winner David Shannon applies his wonderful off-beat humor to the story of a

Bestselling Caldecott Honor artist David Shannon tells the story of a determined duck who decides to jump on a tractor and drive it around the barnyard and through town, with hilarious consequences! Shannon's wildly popular, award-winning Duck on a Bike left children begging him to tell them another story about Duck after seeing him pictured alongside a shiny red tractor. Now Duck is back and turning the farm upside down! Flushed with the success of his trailblazing bike ride around the farm, Duck decides he's ready to drive the tractor. As in the bestselling Duck on a Bike, all the barnyard animals share their humorous comments as they watch Duck do the unthinkable. Then, one by one, they join him on the tractor for a ride! But

what happens when Duck drives the big red tractor through town, past the popular diner where all the locals are having lunch? What will those folks really think when they see Duck and all the other animals riding around on Farmer O'Dell's tractor? Filled with entertaining detail and sly jokes, readers will pore over each picture again and again. Perfect for reading aloud!

Duck just received a new book and after telling all of his friends on the farm about it, he sat down to read it to them.

Soon to be a major motion picture, this is the first—and only—definitive authorized account of Neil Armstrong, the man whose “one small step” changed history. When Apollo 11 touched down on the Moon’s surface in 1969, the first man on the Moon became a legend. In *First Man*, author James R. Hansen explores the life of Neil Armstrong. Based on over fifty hours of interviews with the intensely private Armstrong, who also gave Hansen exclusive access to private documents and family sources, this “magnificent panorama of the second half of the American twentieth century” (*Publishers Weekly*, starred review) is an unparalleled biography of an American icon. In this “compelling and nuanced portrait” (*Chicago Tribune*) filled with revelations, Hansen vividly recreates Armstrong’s career in flying, from his seventy-eight combat missions as a naval aviator flying over North Korea to his formative trans-atmospheric flights in the rocket-powered X-15 to his piloting Gemini VIII to the first-ever docking in space. For a pilot who cared more about flying to the Moon than he did about walking on it, Hansen asserts, Armstrong’s storied vocation exacted a dear personal toll, paid in kind by his wife and children. For the near-fifty years since the Moon landing, rumors have swirled around

Armstrong concerning his dreams of space travel, his religious beliefs, and his private life. A penetrating exploration of American hero worship, Hansen addresses the complex legacy of the First Man, as an astronaut and as an individual. "First Man burrows deep into Armstrong's past and present...What emerges is an earnest and brave man" (Houston Chronicle) who will forever be known as history's most famous space traveler.

Numbers, numbers everywhere. Can you count along with Bear?

Are we there yet? The Bug on the Bike isn't saying. He just started riding his bike one day and invited his friends—from the athletic pickle to a surprisingly agile nickel—to follow behind him. Nobody knows where they're headed, but it's a long, strange trip everyone is happy to take. Chris Monroe, creator of the Monkey with a Tool Belt series, brings her characteristic love of silly details to this rhyming read-aloud romp.

David finally gets his dream--a two-wheeler bicycle.
