An exact match to the structure and content of the new Edexcel Modular specification. Prepare your students for both the end-of-module tests and the terminal exams. Provide lots of exam style questions to make sure students get plenty of practice. Offer hints and tips to help students prepare for their terminal exams

Exam Board: Edexcel Level: A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2016 Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced teacher and author David Scott, this Student Guide for practical Chemistry: - Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications. - Consolidate understanding of practical work, methodology, mathematical and other skills out of the laboratory with exam tips and knowledge check questions, with answers in the back of the book. - Provide plenty of opportunities for students to improve exam technique with sample answers, examiners tips and exam-style questions. - Offer support beyond the Student books with coverage of methodologies and generic practical skills not focused on in the textbooks.

The SEND Code of Practice (2015) reinforced the requirement that all teachers must meet the needs of all learners. This topical book provides practical, tried and tested strategies and resources that will support teachers in making science lessons accessible and exciting for all pupils, including those with special needs. The author draws on a wealth of experience to share her understanding of special educational needs and disabilities and show how science teachers can reduce or remove any barriers to learning. Offering strategies that are specific to the context of science teaching, this book will enable teachers to: help all students develop their 'evidence-gathering' skills and aid their scientific discovery by involving the use of all of the senses and structuring tasks appropriately; create a supportive environment that maximises learning opportunities; plan the classroom layout and display to enhance learning; use technology to adapt lessons to the needs of individual pupils; successfully train and fully use the support of their teaching assistants. An invaluable tool for continuing professional development, this text will be essential for teachers (and their teaching assistants) seeking guidance specific to teaching science to all pupils, regardless of their individual needs. This book will also be of interest to SENCOs, senior management teams and ITT providers. In addition to free online resources, a range of appendices provide science teachers with a variety of writing frames and activity sheets to support effective teaching. This is an essential tool for science teachers and teaching assistants, and will help to deliver successful, inclusive lessons for all pupils.

Provides comprehensive revision notes for students studying the Edexcel additional Science specification.

Board-specific Teacher Support Packs provide advice and assistance on how to approach this new qualification. This Pack is appropriate for Edexcel and includes information on how to prepare students for external assessment and how to assist them in preparing their portfolios.

The second edition of this popular student textbook presents an up-to-date and comprehensive introduction to the process and practice of teaching and learning science in the secondary school.

Not sure what to do after your GCSEs? Are you overwhelmed by the options? Choosing Your A Levels is the only impartial guide which will clearly provide you with all your options post-16. Whether you have decided to study A Levels, an advanced diploma or any other further education qualification, this comprehensive guide will help you take the next steps in your education. If you want more advice on which subjects to take or whether you want to learn more about how they are structured, Choosing Your A Levels provides you with all the information you need to make tough choices and continue into further education. Containing the latest information on AS Levels this book will successfully guide you into further education. Choosing Your A Levels is easy to navigate if you want information about a particular qualification or as a detailed overview of all the major post-16 further education options. Inside you'll find: * Guidance on choosing the right qualification for you and indications of what the different qualifications can lead to * A directory of subjects by qualification for quick reference * Exam tips and preparation to ease the pressure * Advice to help you succeed when you get there Students all have different strengths, so Choosing Your A Levels explains the involvement and details of each qualification showing how each qualification suits different learning styles. This means you have all the information you need at your fingertips to make a personal and informed choice matching yourself with a qualification that works with your strengths, whether they are practical skills or personal attributes, for a successful post-16 education. For more help and advice on choosing other post-16 qualifications please see other titles in the series; Choosing Your Apprenticeship and Choosing Your Diploma.

Provides comprehensive notes for students studying the Edexcel Science (single award) specification.

This ultimate study guide with in-depth GCSE course coverage is all you need for exam success. Revise GCSE Additional Science has everything you need to achieve the GCSE grade you want. It is written by GCSE examiners to boost learning and focus revision.

This second edition of "Philosophy of Religion" expands upon the issues raised in the first edition. It has been revised to meet the content requirements of the philosophy modules of the new AS and A level specifications for religious studies.
