We provide a range of dressmaking, soft furnishing and creative courses. Our day courses are mostly subject-based and take place at the weekend but some are also offered on a Friday. Our evening classes take place on a Monday, Wednesday or Thursday. Most of our courses are suitable for any ability, whether you are a complete beginner, returning to sewing or already an experienced sewer.

"In 1846 the prairie town of Oak River existed only in a settler's dream. In 1856 the dream became an incorporated reality. Ten years later a rambling village with a long muddy Main Street and a thousand souls welcomed back its Civil War boys. And by 1876 it was sprawling over a large area with the cocksure air of a new midwestern town fully expecting to become a huge metropolis. If all the high hopes of those pioneer town councilors had been fulfilled, the midwest to-day would be one grand interlocking of city streets. As it is, hundreds of little towns grew to their full size of two or five or ten thousand, paused in their growth, and admitted that none of them by taking Chamber-of-Commerce thought could add one cubit to its stature." -an excerpt

Have you ever wanted to pursue finding your family history but did not know how or where to start? Or have you started researching but keep running into roadblock after roadblock? Don't be discouraged. Reggie Bishop's informational and inspirational book, The Bishop-Bond, will be your light in the dark. Many individuals, especially in the African American community, are unable to document their family lineage before the early nineteen hundreds due to insufficient records. In The Bishop-Bond, Reggie provides reflective insight, linking clues to records tracing family roots well beyond antebellum history. As constant as branches layering generation to generation, time makes changes that disconnect and conceal the roots of who we are. Reggie reveals, through years of research, inspiring and interesting connections of his family roots. You will be heartened by his inner strength as you read about how he researched through several generations while overcoming any and all obstacles that were thrown his way, and he encourages you to do the same on your trek to discovering your family history. Through Reggie's family research, The Bishop-Bond reveals insightful motivation for you to face life's challenges while uncovering a treasure trove of strong family history. It not only encourages you but also helps in your journey to research family roots. This book gives you a unique sense of connection to history, which reveals deep

reflections as to who we are. Travel the journey with Reggie Bishop in *The Bishop-Bond* and learn the memorable examples and guidance provided to reveal your family history. You can discover your family roots and connections of who you are despite overwhelming challenges in life.

Learn the art and craft of mending—a joyful and meditative practice and a powerful act of restoration for the clothes and belongings we love. This beautifully illustrated handbook will show you how to mend jeans, socks, sweaters, down jackets, and leggings and other common repairs. *Mending Life* encourages us to cherish our things by repairing them rather than discarding them. Filled with heartfelt stories that celebrate a sustainable, intentional lifestyle, it also encourages us to change our consumption habits so that with small mends here and there, we extend the life of our garments and other household items. Encouraging readers interested in slow fashion and craftcore, this handbook is for beginners but also offers more advanced techniques to those with some experience in mending. You'll learn basic techniques such as patching, but will have options to take it a step further with decorative sashiko stitching; you'll also learn how to darn socks and mend sweaters, as well as things like a tear in a bedsheet or down jacket. Along the way, Nina and Sonya Montenegro—creators of *TheFarWoods*—share how the powerful act of mending strengthens not only the object we are repairing, but ourselves as well. Vibrant, full-color illustrations are woven throughout the this timeless and practical guide to cherishing and caring for our belongings.

This captivating book reproduces arguably the most extraordinary primary source documents in fashion history. Providing a revealing window onto the Renaissance, they chronicle how style-conscious accountant Matthäus Schwarz and his son Veit Konrad experienced life through clothes, and climbed the social ladder through fastidious management of self-image. These bourgeois dandies' agenda resonates as powerfully today as it did in the sixteenth century: one has to dress to impress, and dress to impress they did. The Schwarzes recorded their sartorial triumphs as well as failures in life in a series of portraits by illuminists over 60 years, which have been comprehensively reproduced in full color for the first time. These exquisite illustrations are accompanied by the Schwarzes' fashion-focussed yet at times deeply personal captions, which render the pair the world's first fashion bloggers and pioneers of everyday portraiture. *The First Book of Fashion* demonstrates how dress – seemingly both ephemeral and trivial – is a potent tool in the right hands. Beyond this, it colorfully recaptures the experience of Renaissance life and reveals the importance of clothing to the aesthetics and every day culture of the period. Historians Ulinka Rublack's and Maria Hayward's insightful commentaries create an unparalleled portrait of sixteenth-century dress that is both strikingly modern and thorough in its description of a true Renaissance fashionista's wardrobe. This first English translation also includes a bespoke pattern by TONY award-winning costume designer and dress historian Jenny Tiramani, from which readers can recreate one of Schwarz's most elaborate and politically significant outfits.

The award-winning journalist reveals the untold story of why America is so culturally and politically divided in this groundbreaking book. Armed with startling demographic data, Bill Bishop demonstrates how Americans have spent decades sorting themselves into alarmingly homogeneous communities—not by region or by state, but by city and neighborhood. With ever-increasing specificity, we choose the communities and media that are compatible with our lifestyles and beliefs. The result is a country that has become so ideologically inbred that people don't know and can't understand those who live just a few miles away. In *The Big Sort*, Bishop explores how this phenomenon came to be, and its dire implications for our country. He begins with stories about how we live today and then draws on history, economics, and our changing political landscape to create one of the most compelling big-picture accounts of America in recent memory.
