Today the average meal has traveled thousands of miles before reaching the dinner table. How on earth did this happen? In fact, long-distance food is nothing new

Online Library Feasts From The Sunday Times No 1

and, since the earliest times, the things we eat and drink have crossed countries and continents. Through delightful anecdotes and astonishing facts, Moveable Feasts tells their stories. For the ancient Romans, the

Online Library Feasts From The Sunday Times No 1

amphora---a torpedo-shaped pot that fitted snugly into the ship's hold---was the answer to moving millions of tons of olive oil from Spain to Italy. Napoleon offered a reward to anyone who could devise a way of preserving

Online Library Feasts From The Sunday Times No 1

and transporting food for soldiers. (What he got was the tin can.) Today temperature-controlled shipping containers allow companies to send their frozen salmon to China, where it's thawed, filleted,

Online Library Feasts From The Sunday Times No 1

refrozen, and sent back to the United States for sale in supermarkets as "fresh" Atlantic salmon. Combining history, science, and politics, Financial Times writer Sarah Murray provides a fascinating glimpse into

Online Library Feasts From The Sunday Times No 1

the extraordinary odysseys
of food from farm to fork.
She encounters everything
from American grain falling
from United Nations planes
in Sudan to Mumbai's tiffin
men who, using only
bicycles, carts, and their

Online Library Feasts From The Sunday Times No 1

feet, deliver more than
170,000 lunches a day.

Following the items on a
grocery store shopping list,
Murray shows how the
journeys of food have
brought about seismic shifts
in economics, politics, and

Online Library Feasts From The Sunday Times No 1

even art. By flying food into Berlin during the 1948 airlift, the Allies kept a city of more than two million alive for more than a year and secured their first Cold War victory, appealing to German hearts

Online Library Feasts From The Sunday Times No 1

and minds—and stomachs. In nineteenth-century Buffalo, the grain elevator (a giant mechanical scooping machine) not only turned the city into one of America's wealthiest, but it also had a profound influence on

Online Library Feasts From The Sunday Times No 1

modern architecture, giving Bauhaus designers an important source of inspiration. In a thought-provoking and highly entertaining account, Moveable Feasts brings an entirely fresh perspective

Online Library Feasts From The Sunday Times No 1

to the bestselling author of food. And today, as global warming makes headlines and concerns mount about the "food miles" clocked by our dinners, Murray poses a contentious question: Is buying local always the most sustainable,
