Berlin, 1933. William E. Dodd, a mild-mannered academic from Chicago, has to his own and everyone else's surprise, become America's first ambassador to Hitler's Germany, in a year that proves to be a turning point in history. Dodd and his family, notably his vivacious daughter, Martha, observe at first-hand the many changes - some subtle, some disturbing, and some horrifically violent - that signal Hitler's consolidation of power. Dodd has little choice but to associate with key figures in the Nazi party, his increasingly concerned cables make little impact on an indifferent U.S. State Department, while Martha is drawn to the Nazis and their vision of a 'New Germany' and has a succession of affairs with senior party players, including first chief of the Gestapo, Rudolf Diels. But as the year darkens, Dodd and his daughter find their lives transformed and any last illusion they might have about Hitler are shattered by the violence of the 'Night of the Long Knives' in the summer of 1934 that established him as supreme dictator. Suffused with the tense atmosphere of the times, and with brilliant portraits of Hitler, Goebbels, Goering and Himmler amongst others, Erik Larson's new book sheds unique light on events as they unfold, resulting in an unforgettable, addictively readable work of narrative history.

The best-selling author of *Devil in the White City* documents the efforts of first American ambassador to Hitler's Germany William E. Dodd to acclimate to a residence in an increasingly violent city where he is forced to associate with the Nazis while his daughter pursues a relationship with Gestapo chief Rudolf Diels.

A true story of love, murder, and the end of the world's "great hush." In *Thunderstruck*, Erik Larson tells the interwoven stories of two men—Hawley Crippen, a very unlikely murderer, and Guglielmo Marconi, the obsessive creator of a seemingly supernatural means of communication—whose lives intersect during one of the greatest criminal chases of all time. Set in Edwardian London and on the stormy coasts of Cornwall, Cape Cod, and Nova Scotia, *Thunderstruck* evokes the dynamism of those years when great shipping companies competed to build the biggest, fastest ocean liners; scientific advances dazzled the public with visions of a world transformed; and the rich outdid one another with ostentatious displays of wealth. Against this background, Marconi races against incredible odds and relentless skepticism to perfect his invention: the wireless, a prime catalyst for the emergence of the world we know today. Meanwhile, Crippen, "the kindest of men," nearly commits the perfect murder. With his unparalleled narrative skills, Erik Larson guides us through a relentlessly suspenseful chase over the waters of the North Atlantic. Along the way, he tells of a sad and tragic love affair that was described on the front pages of newspapers around the world, a chief inspector who found himself strangely sympathetic to the killer and his lover, and a driven and compelling inventor who transformed the way we communicate.

and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

A graphic portrayal of the background of the Ku Klux Klan, its battle with the law, and the current reasons why hate groups cannot be ignored. Presents the history of the Klan, identifies the victims of its violence, and the responses of those in opposition to Klan activity. Discusses the white supremacist movement, identifying its organizations and leaders of today. Includes an introduction by Julian Bond and conclusion by Morris Dees. Bibliography. Graphic photos.

The white power movement in America wants a revolution. It has declared all-out war against the federal government and its agents, and has carried out—with military precision—an escalating campaign of terror against the American public. Its soldiers are not lone wolves but are highly organized cadres motivated by a coherent and deeply troubling worldview of white supremacy, anticommunism, and apocalypse. In *Bring the War Home*, Kathleen Belew gives us the first full history of the movement that consolidated in the 1970s and 1980s around a potent sense of betrayal in the Vietnam War and made tragic headlines in the 1995 bombing of the Oklahoma City federal building. Returning to an America ripped apart by a war that, in their view, they were not allowed to win, a small but driven group of veterans, active-duty personnel, and civilian supporters concluded that waging war on their own country was justified. They unified people from a variety of militant groups, including Klansmen, neo-Nazis, skinheads, radical tax protestors, and white separatists. The white power movement operated with discipline and clarity, undertaking assassinations, mercenary soldiering, armed robbery, counterfeiting, and weapons trafficking. Its command structure gave women a prominent place in brokering intergroup alliances and giving birth to future recruits. Belew's disturbing history reveals how war cannot be contained in time and space. In its wake, grievances intensify and violence becomes a logical course of action for some. *Bring the War Home* argues for awareness of the heightened potential for paramilitarism in a present defined by ongoing war.

I will not surrender to terrorism By Mr.Gijo Vijayan. This book aims at preventing a person from becoming a terrorist. The author aim at killing the motive behind terrorism, whatever may be the reason behind. Forgive and forget, the world will be safer. An eye for an eye make the whole world blind, said Mahatma Gandhi. If you know anyone, who has extreme and radical views on religion or any ideology, that cause harm to society. This book can be an eye opener to narrow minded people, who

think I am right and whole world is wrong. Stop revenge, forgive and forget, the world will be safer. For nations to live in peace, stop quest for dominance, stop trying to grab someone's land or sea. More investment in military makes common people suffer indirectly. Billions of dollars spent on military expenses can be diverted for betterment of the lives of people, if there is no friction between nations. Billions of dollars spent on atom bombs, missiles, ships, fighter planes etc will eventually of no use to the betterment of humanity. If a third world war occurs, there won't be anyone left to celebrate victory, so it is foolishness to wage war in the name of any ideology or religion. There is only One way to stop terrorism - Education. When millions of people refuse to become terrorist at any cost - by applying thought, the purpose of this book is achieved. To kill terrorism, we must kill the motivation behind terrorism. When you refuse to become a terrorist, you make the world safer. When millions of people around the world refuse to become terrorists, we all win. So, take a pledge today itself, -I will not become a terrorist. -I will not allow my kids to become terrorists. -I will not change my mind, because of people or circumstances around me. -No media, politics or religion can manipulate me. -I will help misguided people to leave the path of terrorism.

The story of legendary American journalist William L. Shirer and how his first-hand reporting on the rise of the Nazis and on World War II brought the devastation alive for millions of Americans When William L. Shirer started up the Berlin bureau of Edward R. Murrow's CBS News in the 1930s, he quickly became the most trusted reporter in all of Europe. Shirer hit the streets to talk to both the everyman and the disenfranchised, yet he gained the trust of the Nazi elite and through these contacts obtained a unique perspective of the party's rise to power. Unlike some of his esteemed colleagues, he did not fall for Nazi propaganda and warned early of the consequences if the Third Reich was not stopped. When the Germans swept into Austria in 1938 Shirer was the only American reporter in Vienna, and he broadcast an eyewitness account of the annexation. In 1940 he was embedded with the invading German army as it stormed into France and occupied Paris. The Nazis insisted that the armistice be reported through their channels, yet Shirer managed to circumvent the German censors and again provided the only live eyewitness account. His notoriety grew inside the Gestapo, who began to build a charge of espionage against him. His life at risk, Shirer had to escape from Berlin early in the war. When he returned in 1946 to cover the Nuremberg trials, Shirer had seen the full arc of the Nazi menace. It was that experience that inspired him to write *The Rise and Fall of the Third Reich*—the magisterial, definitive history of the most brutal ten years the modern world had known—which has sold millions of copies and has become a classic. Drawing on never-before-seen journals and letters from Shirer's time in Germany, award-winning reporter Steve Wick brings to life the maverick journalist as he watched history unfold and first shared it with the world.

#1 New York Times Bestseller From the bestselling author and master of narrative nonfiction comes the enthralling story of the sinking of the Lusitania On May 1, 1915, with WWI entering its tenth month, a luxury ocean liner as richly appointed as an English country house sailed out of New York, bound for Liverpool, carrying a record number of children and infants. The passengers were surprisingly at ease, even though Germany had declared the seas around Britain to be a war zone. For months, German U-boats had brought terror to the North Atlantic. But the Lusitania was one of the era ' s great transatlantic

“ Greyhounds ” —the fastest liner then in service—and her captain, William Thomas Turner, placed tremendous faith in the gentlemanly strictures of warfare that for a century had kept civilian ships safe from attack. Germany, however, was determined to change the rules of the game, and Walther Schwieger, the captain of Unterseeboot-20, was happy to oblige. Meanwhile, an ultra-secret British intelligence unit tracked Schwieger ’ s U-boat, but told no one. As U-20 and the Lusitania made their way toward Liverpool, an array of forces both grand and achingly small—hubris, a chance fog, a closely guarded secret, and more—all converged to produce one of the great disasters of history. It is a story that many of us think we know but don ’ t, and Erik Larson tells it thrillingly, switching between hunter and hunted while painting a larger portrait of America at the height of the Progressive Era. Full of glamour and suspense, *Dead Wake* brings to life a cast of evocative characters, from famed Boston bookseller Charles Lauriat to pioneering female architect Theodate Pope to President Woodrow Wilson, a man lost to grief, dreading the widening war but also captivated by the prospect of new love. Gripping and important, *Dead Wake* captures the sheer drama and emotional power of a disaster whose intimate details and true meaning have long been obscured by history.
