If you are a developer who is new to build systems and task runners but have prior experience with web development, then this book is the right choice for you. You need to have some basic knowledge of HTML, CSS, and JavaScript.

Jake has never hit a homerun. He doesn't have a cool dog. The only time they go on vacation is to visit his grandmother. Middle school is boring, except when he's hanging out with his best friend Kacey. Jake loves baseball; he's gonna play in the MLB one day! His boring life changed in an instant the day Maynard peeked his head out of Jake's baseball bag during one of his games. Maynard's a Mystical Manatee. He disguises himself as a cute, little, stuffed animal, but he's way more impressive when he morphs into his HUGE, AMAZING, BIG-BAD-BUFF SELF! Jake is Maynard's first assignment, and Maynard must find a way to convince Jake to hop on his back and travel to Maynard's wonderful world because King Moo Moo and Queen Mee Mee have an urgent matter to discuss with Jake. Will Jake find the courage to join Maynard on an exciting adventure to Kahwallawallapoopoo, an island somewhere in the South Pacific Ocean full of amazing creatures, where Jake's dreams just might come true?

Maynard and Zeke: A Liar's Playground is a twisted tale involving an intervening narrator who manipulates his imaginary twin brother, Maynard, and his foul-mouthed pet zebra, Zeke, through a host of strange adventures. The narrator and his protagonist-twin rarely see eye-to-eye. This unusual tale is chock full of bizarre characters. It features pterodactyls dropping time windows over the story whenever the narrator doesn't like the direction the book is heading. There is also a microdot that could forever damage U.S.-Russian ties. Highly entertaining, Maynard and Zeke is an improbable, yet unforgettable satirical romp through a fantasy world.

Little Victories, Small Defeats Our world is fully capable of taking an innocent, sensitive, intelligent young man and through death, hypocrisy, retribution and remorse turn him into a drifting, aimless shell of what he might have been. That this happens to James Branaugh is not a story in itself. That James can find his way back from a useless existence, find and give lasting love, and muster the will to redeem his place in society while battling for his life, is a story. That tale comprises the theme of this book. James, the central character, hails from a small farm in the back country of West Virginia. Before his life can really begin, he is left spiritually destitute through the death of his wife and daughter at the hands of a small time drug dealer, and morally adrift by his own redress of the crime. The next several decades of idle wander brings him full circle to his boyhood home. This return is made to finally embrace peace and live his remaining years amid the soothing comfort of the ancestral farm. Before any solace is found, James finds himself in the middle of an old and on-going Machiavellian plot to acquire or control all lands in the immediate area including his own. The ever escalating war of greed is delivered to his doorstep by none other than a US Senator and County Sheriff. Thankfully, James does not have to fight alone, and acquires fellow soldiers in the form of a crippled lawyer, half crazy woodsman, renegade FBI agent and a two-fisted lover. The battles rage from Washington townhouses to high pasture barns and include some decidedly undesirables in hand-to-hand fighting. Someone once said that "all real stories end in death". Death is no stranger to the characters in this archetypical yarn of good versus evil. Set among bucolic hills, the rustic normalcy of country life serves as counterpoint to the chaotic appeal of contemporary living. The charm of simplicity stands in stark contrast to the narcotic of progress. This blend of contradictory desires and lifestyles forms the backdrop for a reflection on greed gone mad. That James can succeed is given. Whether he does and how he goes about it is the story.

Dr. Marcia Maynard, famous child psychoanalyst and infant researcher, was murdered in her bed at the El Dorado Apartment House in Manhattan by an unknown killer. Psychoanalyst Mary Wells helps solve the mystery with her astute analytical and psychological skills. In conjunction with her lover Detective John Franklin, they are an almost unstoppable team. Dr. Wells and Lt. Franklin are devastated to hear that his "Auntie Marcie" and Well's colleague and former analyst has been murdered. The pair, who are both in mourning for Maynard, need all their wits about them as they question her colleagues, staff, and friends. Finding someone angry enough to kill Maynard was not difficult, as many people had been mistreated by the doctor. The suspects included her beautiful Indian housekeeper, Asha Rupashi, whom Maynard continually abused and who was a beneficiary in Maynard's will, her chief associate for 30 years, Dr. James Whirter, a man her colleagues said she treated "like a lapdog", Rogerio Chavez, a Chinese restaurant delivery man, whom Maynard had insulted and infuriated, and several suitors whom she had rejected. The book ends with the killer opening up under ingenious psychological questioning by Dr. Wells, who then falls into Lt. Franklin's arms.

Twenty-one year olds Taylor Metora and Kaleb Skyebann live in the ghettos of Toronto, Canada. Due to the controlled, but uninformed immortal qualities they possess, they live ignorantly to the fact the rest of the world mirrors their poor conditions. Upon the greeting of a wise gentleman, they discover what they really are, a world dedicated to them, and the fact that the society they currently live in nears its demise.

Boxer. Soldier. Columnist. Novelist. Screenwriter. Clark Howard's diverse pursuits all figure in his award-winning short stories. In this new collection, Howard is at his absolute best. In clear, strong prose describing tough characters and hard situations, he conveys powerful feelings -- and a sympathetic view of humanity that touches your heart.

Maynard Olms is an eighty-year-old bachelor who lives in a three-room house with his wolf-dog, Duke, in the Ozark Mountains of southern Missouri. John and Marcella Washburn and their two children, Kelsey and Andrew, live on one end of Coon Hollow Road. Maynard and Duke live on the other. It is the summer of 1988, "the nation's worst drought in 50 years," declares the July 4, 1988, issue of Time Magazine. Cattle are starving as Missouri pastures shrivel and die in the heat. Gardens yield no vegetables for canning and freezing. Orchard trees produce only nubbins of fruit. Apprehension seeps into the already-impoverished community. On the first day of seventh grade, Kelsey Washburn comes home and tells her parents about her new friend, Ava McKittrick, who has just moved into their rural neighborhood from Arkansas. Motherless Ava, who lives with her father, Ben McKittrick, is a child prodigy in math and science. A relationship blossoms between elderly Maynard and the two teenage girls, Kelsey and Ava. The girls carry supper to Maynard two nights a week. They stack his firewood, listen to his harmonica, and soak up the wisdom of his yarns. The girls confide in Maynard, telling him about their dreams of college and hoped-for careers as a scientist and a veterinarian. Maynard, who lives like a pauper, actually has a fortune hidden on his Missouri property. When Maynard dies, his Last Will and Testament directs that his money be distributed to Kelsey and Ava, to be used for their college educations, "if they can find it." But Maynard's evil nephew, Clayton Olms, also has his sights set on finding Maynard's money and shows up on Coon Hollow Road at the most inopportune time. It's a winner-takes-all treasure hunt between two teenage girls and Clayton Olms, a convicted criminal wielding a gun! Ultimately, Duke, Maynard's beautiful wolf-dog determines who finds the hidden treasure.
