As an open operating system, Unix can be improved on by anyone and everyone: individuals, companies, universities, and more. As a result, the very nature of Unix has been altered over the years by numerous extensions formulated in an assortment of versions. Today, Unix encompasses everything from Sun's Solaris to Apple's Mac OS X and more varieties of Linux than you can easily name. The latest edition of this bestselling reference brings Unix into the 21st century. It's been reworked to keep current with the broader state of Unix in today's world and highlight the strengths of this operating system in all its various flavors. Detailing all Unix commands and options, the informative guide provides generous descriptions and examples that put those commands in context. Here are some of the new features you'll

find in Unix in a Nutshell, Fourth Edition: Solaris 10, the latest version of the SVR4-based operating system, GNU/Linux, and Mac OS X Bash shell (along with the 1988 and 1993 versions of ksh) tsch shell (instead of the original Berkeley csh) Package management programs, used for program installation on popular GNU/Linux systems, Solaris and Mac OS X GNU Emacs Version 21 Introduction to source code management systems Concurrent versions system Subversion version control system GDB debugger As Unix has progressed, certain commands that were once critical have fallen into disuse. To that end, the book has also dropped material that is no longer relevant, keeping it taut and current. If you're a Unix user or programmer, you'll recognize the value of this complete, up-to-date Unix reference. With chapter overviews, specific examples, and detailed command.

In her "devilishly clever, scintillatingly sexy new paranormal series" (Chicago Tribune), Christina Dodd introduces the Wilder family - and the evil that's haunted them for centuries. Ruggedly handsome cop Doug Black is determined to find the birth family that left him with nothing but a terrifying inheritance: the ability to change into a savage golden cougar. His search leads him to a woman as fearless and exotic as her name. Firebird Wilder is bitterly familiar with supernatural gifts and flees on discovering Doug's secret, leaving him alone once more. But no one can escape a wild cougar on the hunt...

Digging Into Literature reveals the critical strategies that any college student can use for reading, analyzing, and writing about literary texts. It is based on a groundbreaking study of the successful interpretive and argumentative moves of more than a thousand professional and student essays. Full of practical charts and summaries, with plenty of exercises and activities for trying out the strategies, the book convincingly reveals that while great literature is profoundly and endlessly complex, writing cogent and effective essays about it doesn't have to be.

To understand and make the practical use of the grammatical rules is a challenge poised at various competitive exams. Students preparing for various competitive exams need elucidated grammar rules that are explained in a very easy and understandable language. Practical English Grammar & Composition is the hand book and an easy guide to learn English aimed at learning and improving knowledge of grammar and its applicability. In order to make the students conversant with the practical applicability of the grammar rules, sentences depicting the right usage are also given after the rules. A number of solved exercises are also given after the chapters that enable the students test their acquired knowledge. Word Powers section is a unique feature of the book that will play a crucial role in making the students ready to face the competitions ahead.

Three shocking, compelling and bestselling stories featuring FBI profiler Maggie O'Dell Split Second They dubbed him 'The Collector', named for his ritual of collecting victims before disposing of them in the most heinous ways possible. Now he is on the loose again. The Soul Catcher A group of young men commit suicide in a secluded cabin. A politician's daughter is found strangled. FBI profiler Maggie O'Dell must find the connection between the two before it is too late. At the Stroke of Madness In the tomb-like silence of an abandoned rock quarry, someone is trying to hide their dirty little secret. A secret that reveals the depths of human depravity. A secret that is about to be discovered...

As children, they meet. Bray and Yarrow have little in common. She's all fire. He's all heart. But the same ancient symbol brands their skin, marking them as members of the Chisanta-a superhuman society of scholars and warriors. Together, they travel far to undergo a brutal initiation trial, and form a bond that neither can forget. As young adults, they clash. Years later these friends-turned-rivals reunite, and fond memories won't stop them from crossing swords. She doesn't trust him. He doesn't understand her. But if they don't learn to work together, a troubling string of deaths will remain unsolved. And the fate of their kind could hang in the balance. " McCarron manages to successfully bridge modern ideals and an ancient world in this coming-of-age tale." -Publishers Weekly

Normal 0 false false false Vector Calculus, Fourth Edition, uses the language and notation of vectors and matrices to teach multivariable calculus. It is ideal for students with a solid background in single-variable calculus who are capable of thinking in more general terms about the topics in the course. This text is distinguished from others by its readable narrative, numerous figures, thoughtfully selected examples, and carefully crafted exercise sets. Colley includes not only basic and advanced exercises, but also mid-level exercises that form a necessary bridge between the two.
