⚠ Sad head-unit is my main grouse with the 2020 Honda City's cabin. It is outdated. More suitable to the 4th-gen City in 2013 than the 5th-gen. Interface is old. Reversing camera display is low resolution (again, more 2013 than 2020). By current standards, sound quality is above average for a car costing 17-lakhs on the road. The ICE game has moved on with so many manufacturers (Hyundai ...

This book explores the unfinished India/Pakistan Trade normalisation agenda (building upon the themes covered in the book ‘India-Pakistan Trade: Strengthening Economic Relations’ published by Springer in 2014) and discusses the steps that must be undertaken in order to move the bilateral engagement forward. Given the commencement of bilateral state-level talks and the Indian government’s emphasis on South Asian integration, it adds impetus to the trade liberalisation process, while also providing essential recommendations for policymakers in both countries. The unfinished agenda faces obstacles such as the list of items for which export from India to Pakistan continues to be restricted; lack of land borders and seamless cross-border transport services, which hampers the realisation of trade potential; negative reporting in the media, which influences traders’ perceptions; and the continued occurrence of informal trade resulting from inadequacies of formal trade relations. The book examines various sectors, including the agricultural, textiles, automotive and pharmaceutical industries, given their predominance on the list of restricted items for bilateral trade. It also covers studies on unconventional and under-researched themes concerning informal trade, informational barriers to India/Pakistan trade, and opening new land borders for trade | all of which can play a facilitating role in realizing the untapped trade potential between India and Pakistan. The book also includes the second round of the India/Pakistan trade perception survey, which identifies impediments to India/Pakistan bilateral trade and assesses the change in traders’ perceptions since the first round of the survey, which was published in 2014.

Common Management Admission Test (CMAT) is a nation level entrance examination for the entry into management programmes. The test is conducted by National Test Agency (NTA). It is a three hour computer based online test which is conducted in a single session to evaluate the candidate’s ability across its segments. Its scores are accepted by all Approved Institutions, University Departments, Constituent Colleges, and Affiliated Colleges. The revised edition of reference manual |CMAT 2021| covers the entire study material in an effective & well organized manner.
