To be irresistibly attractive to women. That would be rad, wouldn't it? You see other men working their magic, and you wonder just how they know just what to do. Well, I'll tell you one thing for certain: they weren't born with it. Attraction, believe it or not, is more of a skill than a born personality trait, and you can acquire it, too. The secret lies in understanding exactly what a woman wants, and learning how to give it to her. We have all been taught wrong since we were children about what females find attractive. It's impossible to make them want you when you have no idea what you want. But advice from someone who has plenty of experience attracting women could change everything for you, teaching you what to do in order to make yourself irresistible. I am a man that women naturally find attractive, and I have seduced many women over the years, learning many tricks along the way. I know how their minds work, what makes them tick. I know

what they want and what they don't want, and I am willing to share that information with you. Finally, you will know what you've been doing wrong. You will know what things you need to start doing, and which habits you need to kick. Prepare yourself to be the most attractive man in any room, no matter what you look like. The subtleties of what a woman finds attractive is enough information to fill a book-which is exactly what I've done. But this is no ordinary book. This book compiles years of built knowledge on female attraction, both from my own experience and from my observations, and contains everything you should have been taught as a young boy but never were. Say goodbye to bumbling over your sentences and worrying about your appearance, and wondering why she wandered away after you said hello. After reading this book, you will be so confident in your own ability to sweep a lady off your feet that you won't ever have to ask those kinds of questions again. And that confidence will carry over into all areas of your life, bolstering your self-assurance and your charm in the workplace and social situations. Can it really be that simple? Yes, and no. Don't be fooled-it will take hard study and a lot of practice. But you can learn the subtleties of female attraction just as easily as you can learn anything else. So, yes, female attraction is complex. But just a few secrets will unlock a whole new world for you-a world of irresistible attraction. So, what are you waiting for? Quit being the schmuck standing in the corner, baffled as to why women won't give him a second glance, and be the one who has women coming to him, like bees to honey. The power is right there in front of you, just reach out and take it.

perseverance in the face of inevitable defeat. It rejoices in men and women made of the Wrong Stuff: writers who believed in the power of words, but could never quite find the rights ones; artists and performers who indulged their creative impulse with a passion, if not a sense of the ridiculous, an eye for perspective or the ability to hold down a tune; scientists and businessmen who never quite managed to quit while they were ahead; and sportsmen who seemed to manage always to snatch defeat from the jaws of victory. Like Walter Oudney, one of three men chosen to find the source of the River Niger in Africa, who could not ride a horse, nor speak any foreign languages and who had never travelled more than 30 miles beyond his native Edinburgh; or the explorer-priest Michel Alexandre de Baize, who set off to explore the African continent from east to west equipped with 24 umbrellas, some fireworks, two suits of armor, and a portable organ; or the Scottish army which decided to invade England in 1349 ? during the Black Death. Entries include: briefest career in dentistry; least successful bonding exercise; most futile attempt to find a lost tribe; most pointless lines of research by someone who should have known better; least successful celebrity endorsement; least convincing excuse for a war; worst poetic tribute to a root vegetable; least successful display of impartiality by a juror; Devon Loch ? sporting metaphor for blowing unblowable lead; least dignified exit from office by a French president; and least successful expedition by camel.

This classic book is perfect for fans of Gordon Korman and Carl Hiaasen. Just like other kids, Zinkoff rides his bike, hopes for snow days, and wants to be like his dad when he grows up. But Zinkoff also raises his hand with all

the wrong answers, trips over his own feet, and falls down with laughter over a word like "Jabip." Other kids have their own word to describe him, but Zinkoff is too busy to hear it. He doesn't know he's not like everyone else. And one winter night, Zinkoff's differences show that any name can someday become "hero." With some of his finest writing to date and great wit and humor, Jerry Spinelli creates a story about a boy's individuality surpassing the need to fit in and the genuine importance of failure. As readers follow Zinkoff from first through sixth grade, it becomes impossible not to identify with and root for him through failures and triumphs. The perfect classroom read.

Essential reading for our times, as women are pulling together to demand their rights— A landmark portrait of women, men, and power in a transformed world. “Anchored by data and aromatized by anecdotes, [Rosin] concludes that women are gaining the upper hand.” –The Washington Post Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And “the end of men”—the title of Rosin’s Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan’s “feminine mystique,” Simone de Beauvoir’s “second sex,” Susan Faludi’s “backlash,” and Naomi Wolf’s “beauty myth” once did. In this landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight

unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in *The End of Men* she helps us see how, regardless of gender, we can adapt to the new reality and channel it for a better future.
