Diese Publikation ist aus dem Projekt Deutsch von Anfang an des Goethe-Instituts Istanbul hervorgegangen. DaF-Expertinnen aus sechs s ü dsteurop ä ischen L ä ndern (Bosnien und Herzegowina, Griechenland, Kroatien, Mazedonien, Serbien und der T ü rkei) analysieren den Ist-Zustand des Fr ü hen Deutschlernens in ihren Bildungssystemen und gehen folgenden Fragen nach: Welche St ä rken und Schw ä chen weist das Fr ü he Deutschlernen auf? Vor welchen Herausforderungen steht die Weiterentwicklung des Fr ü hen DaF? Auf welche Potentiale kann die Qualit ä tsentwicklung des Fr ü hen Deutschlernens zur ü ckgreifen? Welche Ver ä nderungen sind erforderlich, um die Qualit ä t des Fr ü hen DaF-Unterrichts zu verbessern? Im Mittelpunkt der L ä nderberichte stehen folgende sechs, f ü r den Fr ü hen DaF-Unterricht zentrale Bereiche: - bildungspolitische und systemische Rahmenbedingungen - curriculare Vorgaben - Lehr- und Lernmaterialien - Evaluation - Lehrer/-innenbildung und -fortbildung - Verbindung von Forschung und Praxis Die Beitr ä ge entwerfen ein detailliertes und vielf ä ltiges Bild des Fr ü hen DaF in S ü dsteuropa; sie zeigen gro ß e Unterschiede insbesondere in Bezug auf die Rahmenbedingungen, aber auch Gemeinsamkeiten im Kontext der fachdidaktischen und sprachpolitischen Entwicklungen in Europa mit dem Schwerpunkt Fr ü hes Fremdsprachenlernen auf. Als Quintessenz des Projekts wurden auf Grundlage der L ä nderberichte Handlungsempfehlungen zum Fr ü hen DaF-Lehren und -Lernen entwickelt. Diese richten sich wie der gesamte Band an Entscheidungstr ä ger/-innen im Bildungssektor, DaF-Lehrkr ä fte sowie an alle Reforminteressierte, die sich f ü r eine Integration des Fr ü hen DaF-Unterrichts in das Konzept einer europ ä ischen Mehrsprachigkeit einsetzen.

Join Elise Gravel as she explores the science of some of nature's weirdest and wildest characters—mushrooms! Elise Gravel is back with a whimsical look at one of her family ' s most beloved pastimes: mushroom hunting! Combining her love of getting out into nature with her talent for anthropomorphizing everything, Gravel takes us on a magical tour of the forest floor and examines a handful of her favorite alien specimens up close. While the beautiful coral mushroom looks like it belongs under the sea, the peculiar lactarius indigo may be better suited for outer space! From the fun-to-stomp puffballs to the prince of the stinkers—the stinkhorn mushroom—and the musically inclined chanterelles, Gravel shares her knowledge of this fascinating kingdom by bringing each species to life in full felt-tip marker glory. Governor General award winning author Elise Gravel ' s first book with Drawn & Quarterly, If Found...Please Return to Elise Gravel, was a Junior Library Guild selection, and instant hit among librarians, parents, and kids alike. Fostering the same spirit of creativity and curiosity, The Mushroom Fan Club promises to inspire kids to look more closely at the world around them and seek out all of life ' s little treasures, stinky or not!

In the year 2520, Philippa Bidding sets out to make a new life for herself on the planet Gauguin, but an old lover threatens to draw her, her family, and her new planet into the revolution he leads.

Where did we come from? It's a simple question, but not so simple an answer to explain—especially to young children. Charles Darwin's theory of common descent no longer needs to be a scientific mystery to inquisitive young readers. Meet Grandmother Fish. Told in an engaging call and response text where a child can wiggle like a fish or hoot like an ape and brought to life by vibrant artwork, Grandmother Fish takes children and adults through the history of life on our planet and explains how we are all connected. The book also includes comprehensive backmatter, including: - An elaborate illustration of the evolutionary tree of life - Helpful science notes for parents - How to explain natural selection to a child

From the 1960s to the 1990s, seven members of the Quimpo family dedicated themselves to the anti-Marcos resistance in the Philippines, sometimes at profound personal cost. In this unprecedented memoir, eight siblings (plus one by marriage) tell their remarkable stories in individually authored chapters that comprise a family saga of revolution, persistence, and, ultimately, vindication, even as easy resolution eluded their struggles. Subversive Lives tells of attempts to smuggle weapons for the New People ' s Army (the armed branch of the Communist Party of the Philippines); of heady times organizing uprisings and strikes; of the cruel discovery of one brother ' s death and the inexplicable disappearance of another (now believed to be dead); and of imprisonment and torture by the military. These stories show the sacrifices and daily heroism of those in the movement. But they also reveal its messy legacies: sons alienated from their father; daughters abused by the military; friends betrayed; and revolutionary affection soured by intractable ideological differences. The rich and distinctive contributions span the martial law years of Ferdinand Marcos ' s rule. Subversive Lives is a riveting and accessible primer for those unfamiliar with the era, and a resonant history for those with a personal connection to what it meant to be Filipino at that time, or for anyone who has fought political repression.
