

## Informatica Activa 1

Recognizing the pretentiousness ways to get this books **informatica activa 1** is additionally useful. You have remained in right site to start getting this info. get the informatica activa 1 member that we provide here and check out the link.

You could purchase guide informatica activa 1 or get it as soon as feasible. You could quickly download this informatica activa 1 after getting deal. So, in imitation of you require the ebook swiftly, you can straight get it. It's thus unquestionably simple and correspondingly fats, isn't it? You have to favor to in this atmosphere

In addition to these basic search options, you can also use ManyBooks Advanced Search to pinpoint exactly what you're looking for. There's also the ManyBooks RSS feeds that can keep you up to date on a variety of new content, including: All New Titles By Language.

Hace ocho años, la Informática Forense era solo una asignatura en vías de desarrollo, apenas conocida entre la mayoría de los profesionales de la Criminalfística, gestionada por muy pocos y casi aislada de las disciplinas que le dan razón de ser: el Derecho, la Criminalfística y la Informática. En la presente publicación, el orden que mostramos no es antojadizo ni aleatorio, sino que indica un camino a seguir por todo aquel que desea desempeñarse como perito en la materia. Hoy el panorama ha cambiado -entre otras razones por la amplia difusión y recepción que tuvo el Manual de Informática Forense, ofrecido a los lectores por esta misma Editorial (2011)- y nuevamente nos encontramos con la Prof. Ing. María Elena Darahuge (práctica-procedimental) y el Prof. Ing. Luis Enrique Arellano González (desarrollo teórico-conceptual), quienes, con el auspicio de la Facultad Regional Avellaneda (Universidad Tecnológica Nacional), han complementado la obra antedicha, ampliando sus alcances sobre los componentes informáticos móviles (iPod, iPad, tablet, telefonía celular) y especificando temas de permanente actualidad, tales como la "cadena de custodia informático forense", que tanto ha dado que hablar en el entorno jurisprudencial durante el año 2012. Este Manual se integra al anterior a fin de brindar un instrumento organizado conceptual y procedimentalmente a los operadores del Derecho (jueces, funcionarios judiciales, abogados de la matrícula), ingenieros, licenciados y peritos en Informática, Sistemas o Computación, licenciados en Criminalfística, profesionales y empresarios que aspiren a una visión clara y sencilla de la Problemática Informático Forense, para resolver situaciones cotidianas y darle soporte a sus decisiones. Esperamos que esta obra les proporcione la utilidad y claridad pretendidas.

La seguridad informática es una pieza clave de cualquier organización. Conocer sus técnicas y herramientas es fundamental para los profesionales de la informática. Este libro desarrolla los contenidos del módulo profesional de Seguridad Informática del Ciclo Formativo de Sistemas Microinformáticos y Redes, perteneciente a la familia profesional de Informática y Comunicaciones. Seguridad informática permite a cualquier persona introducirse en la seguridad informática y conocer los procesos y herramientas actuales en la implantación y mantenimiento de sistemas seguros. Entre estos contenidos, cabe destacar: --- Protección pasiva: protección física del sistema de información y de los centros de procesos de datos, y almacenamiento seguro y su recuperación. --- Protección activa: conocer las metodologías de los atacantes para implantar otras que protejan los sistemas y reparen los fallos lógicos. --- Documentación y desarrollo de auditorías: para abordar procesos de análisis forense, intrusismo controlado y auditoría web, siempre atendiendo a la legislación vigente. --- Procesos e instrumentos: monitorización de tráfico, gestión de contraseñas, test de intrusión, gestión de eventos, cifrado y protocolos seguros, protección en switches y routers, y explotación de DMZ, VPN, cortafuegos y servidores proxies. El autor, Antonio Postigo Palacios, es ingeniero informático e investigador en didácticas de las ciencias. Desde el año 2000 imparte clases en los diferentes ciclos formativos de la familia profesional de Informática y Comunicaciones, y en materias relacionadas con la seguridad informática.
