Construction Equipment Guide covers the nation with its four regional newspapers, offering construction and industry news and information along with new and used construction equipment for sale ...

The aims of CMIT2013 are to provide a platform for researchers, educators, engineers, and government officials involved in the general areas of management and Information Technology to disseminate their latest research results and exchange views on the fu ture research directions of these fields, to exchange management and information technology and integrate of their practice, application of the academic ideas, improve the academic depth of information technology and its application, provide an internation al communication platform for educational technology and scientific research for the world's universities, business intelligence engineering field experts, professionals, and business executives. The CMIT 2013 tends to collect the latest research results an d applications on management and information technology . It includes a selection of 125 papers from 781 papers submitted to the conference from universities and industries all over the world. All of accepted papers were subjected to strict peerreviewing b y two to four expert referees. The papers have been selected for this volume because of quality and the relevance to the conference. The conference is designed to stimulate the young minds including Research Scholars, Academicians, and Practitioners to co ntribute their ideas, thoughts and nobility in these two disciplines.

The book is a mixutre of theory and how-to. The theoretical parts will help you decide what types of goods are appropriate for composite construction, and how to design them; the how-to sections are sufficiently detailed that even a novice should be able to successfully fabricate those goods.

Vols. for 1970-71 includes manufacturers catalogs.
