There may be “an app for that,” but every app starts as an idea. Ideas can come from anyone—designers or developers, marketing managers or CEOs—and this book is about bringing those ideas to life. iOS is a remarkable platform, both from a technology standpoint and as a pure business opportunity. With over 10 billion apps downloaded through the iTunes App Store, and over 50 million new iOS devices expected to ship in 2011, no other platform puts big business and individual developers on a level playing field like iOS does. Needless to say, if you have an idea for an app, now is the time to make it happen. Whether you’re a designer or a developer, this book will help you: Create basic user interface elements Understand navigation metaphors and practices Design for multiple devices Customize system UI elements

Winner of the 2015 Hiett Prize in the Humanities. Sometimes it seems like you need a PhD just to open a book of philosophy. We leave philosophical matters to the philosophers in the same way that we leave science to scientists. Scott Samuelson thinks this is tragic, for our lives as well as for philosophy. In *The Deepest Human Life* he takes philosophy back from the specialists and restores it to its proper place at the center of our humanity, rediscovering it as our most profound effort toward understanding, as a way of life that anyone can live. Exploring the works of some of history's most important thinkers in the context of the everyday struggles of his students, he guides us through the most vexing quandaries of our existence—and shows just how enriching the examined life can be. Samuelson begins at the beginning: with Socrates, working his most famous assertion—that wisdom is knowing that one knows nothing—into a method, a way of approaching our greatest mysteries. From there he springboards into a rich history of philosophy and the ways its journey is encoded in our own quests for meaning. He ruminates on Epicurus against the sonic backdrop of crickets and restaurant goers in Iowa City. He follows the Stoics into the cell where James Stockdale spent seven years as a prisoner of war. He spins with al-Ghazali first in doubt, then in the ecstasy of the divine. And he gets the philosophy education of his life when one of his students, who authorized a risky surgery for her son that inadvertently led

to his death, asks with tears in her eyes if Kant was right, if it really is the motive that matters and not the consequences. Through heartbreaking stories, humanizing biographies, accessible theory, and evocative interludes like "On Wine and Bicycles" or "On Zombies and Superheroes," he invests philosophy with the personal and vice versa. The result is a book that is at once a primer and a reassurance—that the most important questions endure, coming to life in each of us.

Aphra Behn was a prolific and well established writer but facts about her remain scant and difficult to confirm. What can safely be said though is that Aphra Behn is now regarded as a key English playwright and a major figure in Restoration theatre. Aphra was born into the rising tensions to the English Civil War. Obviously a time of much division and difficulty as the King and Parliament, and their respective forces, came ever closer to conflict. There are claims she was a spy, that she travelled abroad, possibly as far as Surinam. By 1664 her marriage was over (though by death or separation is not known but presumably the former as it occurred in the year of their marriage) and she now used Mrs Behn as her professional name. Aphra now moved towards pursuing a more sustainable and substantial career and began work for the King's Company and the Duke's Company players as a scribe. Previously her only writing had been poetry but now she would become a playwright. Her first, "The Forc'd Marriage," was staged in 1670,

followed by "The Amorous Prince" (1671). After her third play, "The Dutch Lover," Aphra had a three year lull in her writing career. Again it is speculated that she went travelling again, possibly once again as a spy. After this sojourn her writing moves towards comic works, which prove commercially more successful. Her most popular works included "The Rover" and "Love-Letters Between a Nobleman and His Sister" (1684-87). With her growing reputation Aphra became friends with many of the most notable writers of the day. This is The Age of Dryden and his literary dominance. From the mid 1680's Aphra's health began to decline. This was exacerbated by her continual state of debt and descent into poverty. Aphra Behn died on April 16th 1689, and is buried in the East Cloister of Westminster Abbey. The inscription on her tombstone reads: "Here lies a Proof that Wit can never be Defence enough against Mortality." She was quoted as stating that she had led a "life dedicated to pleasure and poetry."
