Adobe FrameMaker has long been the software of choice for technical documentation and large-scale document publishing because of its versatility and ability to handle the entire publishing process--from word processing and page layout to electronic distribution. Now, with the introduction of version 7.0, the popular publishing program has gone even further to accommodate businesses' growing need for multi-format publishing by adding the ability to automatically reformat the same document for delivery in a number of formats, including Web pages, Acrobat print files, Palm handheld devices, and more. And that's just the beginning: Adobe's official Classroom in a Book training series guides you through all of the program's features, tools, and techniques--both old and new--using hands-on projects and end-of-chapter review questions to make sure the newly acquired knowledge sticks! If you're a
