specified by National Council of Educational Research and Training (NCERT) for the latest sessions

I Explore A Science Textbook for Class 1 comprehensively provides all the materials required for effective learning of the different elementary aspects of science. I Explore is an eight-level series of textbooks in science. As envisaged in the National Curriculum Framework (2005) guidelines, these books have been designed to present science as a living body of knowledge where students are encouraged and guided to make exploratory forays of their own. Book 8 conforms strictly to latest NCERT syllabus specifications for science at the middle school level. Care has been taken to inculcate scientific aptitude in students through a variety of exercises and activities and to enhance their investigative and analytical ability. Tasks and exercises have been incorporated to facilitate Continuous and Comprehensive Assessment (CIE).

Lakhmir Singh's Science is a series of books which conforms to the NCERT syllabus. The main aim of writing this series is to help students understand difficult scientific concepts in a simple manner in easy language. The ebook version does not contain CD.

This is a powerful exploration of the blurring boundaries of privacy and the fragility of self, a tour de force of modern life that will have listeners debating their assumptions about family, morality, and the sacrifices and choices we make in the name of love.

This title offers comprehensive yet simple explanations for scientific terminology across various disciplines. With definitions that are precise and easy to understand, this is a handy reference for young students seeking clarity on complex scientific terms.
