Organizational culture may seem like a touchy-feely kind of subject, especially when you bring it up to the executive team. But don't believe it. Culture does matter. It matters because organizational culture shapes employee behaviors, and employee behaviors drive organizational success. Sometimes an organization's culture can stand in the way of its success, which is why culture audits can be important tools for diagnosing and identifying deep-seated and persistent performance problems.

For grades 6-8, our State Standards-based resource meets the measurement concepts addressed by the NCTM standards and encourages the students to learn and review the concepts in unique ways. We provide students the opportunity to learn, review, and master essential measurement skills by encouraging them to use, compare, analyze, and assess different units of measurement. Students will reinforce and develop their knowledge of measurement tools including: length, volume, time, money, weight and area. Students will be asked to use standard as well as metric units of measure as they practice these measurement skills. The task sheets offer space for reflection, and opportunity for the appropriate use of technology. Also contained are assessment and standards rubrics, review sheets, test prep, color activity posters and bonus worksheets. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.
