For years, Derrick Jensen has asked his audiences, "Do you think this culture will undergo a voluntary transformation to a sane and sustainable way of life?" No one ever says yes. Deep Green Resistance starts where the environmental movement leaves off: industrial civilization is incompatible with life. Technology can't fix it, and shopping—no matter how green—won't stop it. To save this planet, we need a serious resistance movement that can bring down the industrial economy. Deep Green Resistance evaluates strategic options for resistance, from nonviolence to guerrilla warfare, and the conditions required for those options to be successful. It provides an exploration of organizational structures, recruitment, security, and target selection for both aboveground and underground action. Deep Green Resistance also discusses a culture of resistance and the crucial support role that it can play. Deep Green Resistance is a plan of action for anyone determined to fight for this planet—and win.

Do you know someone who is just a bit too manipulative and full of himself? Does someone you know charm the masses yet lack the ability to deeply connect with those around her? You might have an Almost Psychopath in your life. Do you know someone who is too manipulative and full of himself? Does someone you know charm the masses yet lack the ability to deeply connect with those around her? Grandiosity and exaggerated self-worth. Pathological lying. Manipulation. Lack of remorse. Shallowness. Exploitation for financial gain. These are the qualities of Almost Psychopaths. They are not the deranged criminals or serial killers that might be coined "psychopaths" in the movies or on TV. They are spouses, coworkers, bosses, neighbors, and people in the news who exhibit many of the same behaviors as a full-blown psychopath, but with less intensity and consistency. In *Almost a Psychopath*, Ronald Schouten, MD, JD, and James Silver, JD, draw on scientific research and their own experiences to help you identify if you are an Almost Psychopath and, if so, guide you to interventions and resources to change your behavior. If you think you have encountered an Almost Psychopath, they offer practical tools to help you: recognize the behavior, attitudes, and characteristics of the Almost Psychopath; make sense of interactions you've had with Almost Psychopaths; devise strategies for dealing with them in the present; make informed decisions about your next steps; and learn ways to help an Almost Psychopath get better control of their behavior. The *Almost Effect™* Series presents books written by Harvard Medical School faculty and other experts that offer guidance on common behavioral and physical problems falling in the spectrum between normal health and a full-blown medical condition. These are the first publications to help general readers recognize and address these problems.

In a series of essays scrutinizing feminist and post-structuralists positions, Tania Modleski examines "the myth of postfeminism" and its operation in popular culture, especially popular film and cultural studies. (First published in 1991.)
