This book "Risk Management Treatise for Engineering Practitioners" has been published by academic researchers and experts on risk management concepts mainly in the construction engineering sector. It addresses basic theories and principles of risk management backed up, in most cases, with case studies. The contributions for this book came from authors in Europe, the Far East and Africa, and it is hoped that the contents of this book will be useful to anyone interested in understanding the principles and applications of risk management, especially within the construction engineering sector. Researchers and postgraduate students in science and engineering disciplines, especially those interested in project management, will find this book useful.

According to the 1999 Salary Survey conducted by MCP Magazine, the average MCSE has 6.8 years of experience. The average self-employed MCSE consultant with 6 - 9 years of experience earns \$85,000 - that's over \$8,000 more than the average salary +bonus and benefits package of other MCSEs. There is a demand for MCSEs who can offer a variety of technical expertise and services, and this book will show readers how to create a successful consulting business. MCSE Consulting Bible walks readers through the issues to consider when making the decision to start their own consulting business and then offers key advice on each aspect of the business from deciding what services to offer, to marketing, to maintaining customer relationships.
