The questions considered include:

What is schizophrenia?

What are the risk factors? What are the core symptoms? How is it treated? What are the efficacy and side effects of the available treatments?

High blood pressure (BP) (with fats and smoking) is one of the

three roots of cardio-cerebro-renal disease affecting up to 25% of the adult population. Hence, high blood pressure should be recognized and treated, to reduce any complications and prolong life, as noted by Michael Weber of the Veterans Administration Hospital in Long Beach, California. He further
