practitioners caring for children.

Recent work has begun to elucidate at the

Download Free Protein In Urine Proteinuria

molecular level how albumin is handled by the kidney and how albuminuria develops in various proteinuric diseases including minimal change disease and focal segmental glomerulosclerosis. This volume provides a comprehensive overview of the renal handling of albumin from basic mechanisms to the

Download Free Protein In Urine Proteinuria

pathophysiology of proteinuric diseases. In describing the basic mechanisms of albuminuria, a particular highlight will be the focus on advanced imaging techniques such as intravital microscopy that have allowed a detailed "window" into albumin transit through the kidney. The volume will cover the epidemiological studies

Download Free Protein In Urine Proteinuria

which show that albuminuria is a strong and independent marker of kidney disease progression and cardiovascular events, the molecular details of albumin handling in the kidney at the level of the glomerulus and the proximal tubule and the pathophysiology of proteinuric diseases including minimal change disease,

Download Free Protein In Urine Proteinuria

membranous nephropathy, focal segmental glomerulosclerosis and diabetic nephropathy.

"Like others in the "Requisites in Pediatrics" series, this volume offers a fast-access format for information on how to deal with assessment, treatment, and

Download Free Protein In Urine Proteinuria

stabilization of renal and urologic disorders and traumas commonly encountered in practice. Organization is consistent throughout, and chapters end with lists of key points, making the text suitable for certification review and as a clinical reference. Coverage includes trauma, hematuria and proteinuria,

Download Free Protein In Urine Proteinuria

hypertension, glomerular disorders, acute and chronic renal failure, dialysis, and transplantation, among other topics.

Radiographs and drawings illustrate the text. Editors Kaplan and Meyers (pediatrics, U. of Pennsylvania School of Medicine, and the Children's Hospital of Philadelphia) lead a crew of 18
