This comprehensive guide explores one of the great traditions of Western painting: alla prima, or direct, painting. Bold brushwork and a painterly surface are the hallmarks of this renowned technique, and one of the great masters of alla prima was Arthur DeCosta, the legendary Pennsylvania Academy of Fine Arts teacher. In Alla Prima, author Al Gury reveals the step-by-step lessons he learned in his years of study with DeCosta. From start to finish, with clear explanations of color mixing, palettes, drawing and layering, structure, brushwork, and more, Gury guides readers through the full alla prima process. Portraiture, still life, figure, and landscapes are explored, all illustrated with the work of the greats, from Rubens, Rembrandt, and Velazquez, through Degas, Manet, and Cezanne, to Sargent and Whistler. Today alla prima is the ideal choice for artists who want to return to skill-based training yet retain a contemporary style—and Alla Prima is the perfect guide to the technique.

Self-portraiture is a remarkably rich and varied genre, acting for centuries as a means for artists to explore their inner and outer selves. This book looks deeper into the motives and thoughts that lie behind the creative process, and it also balances the goals of technical proficiency and emotional authenticity so the artist is better equipped to make a compelling self-portrait. Written by identical twins, it offers a personalized, practical and theoretical guide to this most powerful of art forms. The text looks at the whole creative process involved in making a self-portrait, and extended step-by-step demonstrations follow three differing approaches to self-portraiture. It emphasizes the use of good observational skills, expressive paint use and a highly practical and critical self-analysis, and offers a thorough cultural and theoretical review of the history and categorization of the self-portrait, as well as an analysis of two master self-portraits. Aimed at all artists and designers, animators and portrait painters and illustrated with 87 colour images.

PAINTING: OILS. Often seen as dark and gloomy, oils can, in fact, be used to create colourful and light paintings that are wonderfully expressive. One significant characteristic of oil paint is its richness and depth of colour, something that is of particular interest to Nicholas Verrall. In this book, he discusses his working methods and the importance of colour, at the same time placing these issues within the general context of painting in oils, with all that this has to offer. Includes information, demonstrations and many inspirational finished paintings to help painters understand the value of colour in interpreting ideas with feeling and impact. It provides guidance on a wide range of skills, techniques and advice on subject matter and associated topics. Illustrated throughout. It shows how to use oils and create colourful, light and expressive pictures. Verrall is one of the UK’s most respected contemporary figurative painters. It is presented new in paperback.
