Robert Shaw is most celebrated today as the Oscar-nominated star in movies like *From Russia with Love*, *A Man For All Seasons*, *The Sting* and - most memorably of all - as Quint in the record-breaking *Jaws*. His breakthrough came when Hollywood was experiencing something of a British Invasion. Sean Connery, Peter O'Toole, Vanessa Redgrave and Richard Burton were among the new stars. But Shaw was arguably more talented than any, a figure of extraordinary and wide-ranging promise. More than just a mesmerising actor on stage and screen, he was also a gifted writer. He wrote no less than six published novels (winning the Hawthornden Prize), while his plays include the acclaimed *Man in The Glass Booth*. The flipside to Shaw's diverse abilities was his well-earned reputation as a hellraiser. A fiercely competitive man in all areas of his life, whether playing table tennis or drinking whisky, he emptied mini-bars, crashed Aston Martins, fathered nine children by three different women, made (and spent) a fortune, and set fire to Orson Welles' house. He died at 51, having driven himself too hard, too fast, but unable to get past the tortured relationship to his father who had committed suicide when Shaw was just 11. Though his life ended tragically, it is fortunate that Shaw's biographer is someone who knew him well, professionally and personally. Robert Shaw: *The Price of Success* is a perceptive, sympathetic, but unsparing portrait of the blessings and curses endowing this mercurial, enigmatic but deeply engaging man.

Examines Shaw's life, character, and career against the backdrop of developments in American musical history, highlighting the conductor's beliefs about the spiritual values of great music and his achievements as the director of numerous ensembles.

A boy meets and falls in love with a girl who stutters, and she changes his life! 14-year-old Mikey McElwaine dreams of the girl he longs to meet. She's so real he can almost reach out and touch her... if he didn't keep waking up and getting in trouble with the school bully. Then Mikey meets Lian in the waking world and she changes everything for everyone. The story is about having tolerance, understanding and acceptance for those who are different; having self-confidence, self-respect and respect for one's peers, and dealing with bullies both youthful and grown-up.

On July 18, 1863, the African American soldiers of the Fifty-Fourth Massachusetts Infantry led a courageous but ill-fated charge on Fort Wagner, a key bastion guarding Charleston harbor. Confederate defenders killed, wounded, or made prisoners of half the regiment. Only hours later, the body of Colonel Robert Gould Shaw, the

regiment's white commander, was thrown into a mass grave with those of twenty of his men. The assault promoted the young colonel to the higher rank of martyr, ranking him alongside the legendary John Brown in the eyes of abolitionists. In this biography of Shaw, Russell Duncan presents a poignant portrait of an average young soldier, just past the cusp of manhood and still struggling against his mother's indomitable will, thrust unexpectedly into the national limelight. Using information gleaned from Shaw's letters home before and during the war, Duncan tells the story of the rebellious son of wealthy Boston abolitionists who never fully reconciled his own racial prejudices yet went on to head the North's vanguard black regiment and give his life to the cause of freedom. This thorough biography looks at Shaw from historical and psychological viewpoints and examines the complex family relationships that so strongly influenced him.

On the Boston Common stands one of the great Civil War memorials, a magnificent bronze sculpture by Augustus Saint-Gaudens. It depicts the black soldiers of the Fifty-fourth Massachusetts Infantry marching alongside their young white commander, Colonel Robert Gould Shaw. When the philosopher William James dedicated the memorial in May 1897, he stirred the assembled crowd with these words: "There they march, warm-blooded champions of a better day for man. There on horseback among them, in the very habit as he lived, sits the blue-eyed child of fortune." In this book Shaw speaks for himself with equal eloquence through nearly two hundred letters he wrote to his family and friends during the Civil War. The portrait that emerges is of a man more divided and complex--though no less heroic--than the Shaw depicted in the celebrated film *Glory*. The pampered son of wealthy Boston abolitionists, Shaw was no abolitionist himself, but he was among the first patriots to respond to Lincoln's call for troops after the attack on Fort Sumter. After Cedar Mountain and Antietam, Shaw knew the carnage of war firsthand. Describing nightfall on the

Antietam battlefield, he wrote, "the crickets chirped, and the frogs croaked, just as if nothing unusual had happened all day long, and presently the stars came out bright, and we lay down among the dead, and slept soundly until daylight. There were twenty dead bodies within a rod of me." When Federal war aims shifted from an emphasis on restoring the Union to the higher goal of emancipation for four million slaves, Shaw's mother pressured her son into accepting the command of the North's vanguard black regiment, the Fifty-fourth Massachusetts. A paternalist who never fully reconciled his own prejudices about black inferiority, Shaw assumed the command with great reluctance. Yet, as he trained his recruits in Readville, Massachusetts, during the early months of 1863, he came to respect their pluck and dedication. "There is not the least doubt," he wrote his mother, "that we shall leave the state, with as good a regiment, as any that has marched." Despite such expressions of confidence, Shaw in fact continued to worry about how well his troops would perform under fire. The ultimate test came in South Carolina in July 1863, when the Fifty-fourth led a brave but ill-fated charge on Fort Wagner, at the approach to Charleston Harbor. As Shaw waved his sword and urged his men forward, an enemy bullet felled him on the fort's parapet. A few hours later the Confederates dumped his body into a mass grave with the bodies of twenty of his men. Although the assault was a failure from a military standpoint, it proved the proposition to which Shaw had reluctantly dedicated himself when he took command of the Fifty-fourth: that black soldiers could indeed be fighting men. By year's end, sixty new black regiments were being organized. A previous selection of Shaw's correspondence was privately published by his family in 1864. For this volume, Russell Duncan has restored many passages omitted from the earlier edition and has provided detailed explanatory notes to the letters. In addition he has written a lengthy biographical essay that places the young colonel and his regiment in historical context.

This groundbreaking study reveals the remarkable beauty, historical significance, and technical virtuosity of American vanes fashioned between the late seventeenth and early twentieth centuries and is lavishly illustrated with masterworks from prominent private and public collections. This major American art form has been an enduring part of the landscape since Colonial days. America's first documented vane maker, Shem Drowne of Boston, crafted the iconic golden grasshopper that has topped the city's Faneuil Hall since 1743. Farmers made roosters, cows, and horses for their barns. As the tradition and public demand expanded, so did the diversity of forms. Today, weathervanes hold a well-established place in the canon of American folk art. American Weathervanes celebrates this artistry and is the most up-to-date and authoritative work on this subject.
