This is the chapter slice "Why Do I Need Better Critical Thinking Skills?" from the full lesson plan "Critical Thinking". With Critical Thinking, Students will gain the ability to not only understand what they have read, but how to build upon that knowledge independently by examining such skills as independent thinking, organization, asking questions, and problem-solving. Definitions of important terms and many opportunities to practice the skills being taught make our resource user-friendly and easy to understand. In addition, the objectives used in this book are structured using Bloom's Taxonomy of Learning to ensure educational appropriateness. You will be able to teach students the basic skills they will need to become critical thinkers. What they will learn from our resource will be just the beginning of a critical thinking journey that will continue through college and into adulthood. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy.
