Stepfamily Living Books, Counseling, and Coaching - Elizabeth Einstein. Strengthening Your Stepfamily Book. Understand how to build bonds, examine expectations, and clarify goals within your stepfamily.

One of three Americans is now a stepparent, a stepchild, a stepsibling, or some other member of a stepfamily. Stepfamilies are different. The "old rules" that govern traditional families don't necessarily apply, and each stepfamily must define its own "new rules" that will work for a unique blended family. Einstein and Albert bring to this manual decades of experience as stepfamily counselors and consultants, acclaimed writers, and stepparents themselves. The result is clear, down-to-earth, expert help for couple relationships and parenting in what some call "the jigsaw puzzle family." Among the many challenges dealt with in this comprehensive guidebook: overcoming unrealistic expectations, debunking myths, decision making, building effective communication, establishing sound discipline, handling stepsibling rivalry, working with non-custodial parents... and more.

A positive step-by-step programme for putting your life back together when your relationship ends.

Guess which couple got more of what they wanted: Charles and Charlotte, who worked out a negotiated settlement together? Or John and Joyce, who let the court settle their differences? Couples who want to negotiate their own divorce settlements now have a comprehensive self-help guide, complete with ground rules, agendas for discussion, sample forms, and options for divorce mediation without "bloodshed." Not quite a "do-it-yourself" manual - you'll still need an attorney - but packed with real-couple examples of successful agreements on Co-Parenting, Custody, Financial Support, College Planning, Property, Insurance, Taxes... An organized, thorough guide to the important issues for every separating couple, and an effective aid for those who seek professional mediation. "Your chances of getting the outcome you want are best when you take control of the decision-making process," says Martin Kranitz, Director of the National Center for Mediation Education in Annapolis, Maryland. "Couples can work out their own decisions, if they know what to talk about."

The return of a classic! A systematic, practical model for building marriage skills, newly revised and updated. Invaluable tools to help make marriages more rewarding, effective, and satisfying by showing couples how to encourage each other, resolve conflict, communicate effectively, maintain equality in the relationship, and make better choices.

Brave New Stepfamilies maps the changing landscape of American stepfamilies, taking readers on a tour through the diverse assortment of traditional and not-so-traditional stepfamily forms that have emerged in recent years. Author Susan D. Stewart presents the latest scholarly research on stepfamilies in an accessible way, weaving together predominant theoretical perspectives, findings from research and national surveys, and interviews with stepfamily members.

Tragedy and trauma are facts of life. Experiences that leave people feeling wounded, abused, hopeless, and heart-broken rain on the just and the unjust. What to do and how to help such victims are essential questions for caregivers. This book is a down-to-earth practical guide for entering into the trauma of people's lives with hope and purpose. Its aim is to instruct both the caregiver and the care-receiver in how to move from victimization to victory. It confronts 12 experiences that tend to leave a person traumatized with a head-on approach which goes way beyond easy answers and platitudes.
