Dr. Michael Belzman is the founder of the Association of Christian Alcohol & Drug Counselors (ACADC). An educator, counselor and pastor, he is also a speaker at congressional hearings warning law makers against making laws that exclude Faith-Based counselors from participation in the professional arena or infringe upon their religious freedom. ACADC is the only Christ-centered counselor certification organization authorized by any state government. ACADC Institute trains their students biblically so they can provide addiction counseling to Christians in need of the biblical rather than secular options. Few thought it possible that a Christ-centered certification board could exist in today's postmodern society, yet ACADC was written by the hand of God into the California Code of Regulations, opening a door that no man could close. From a background of teaching psychology at secular universities, and a false belief in human solutions to the problems of the soul, Dr. Belzman surrendered his life to Christ in 1980. By nurturing a personal relationship with Him through prayer and Bible study, he found that God's life principles and promises changed his life in a way that psychology or prescribed drugs could not do. He saw first-hand how God's power not only overcomes deep addiction, but can direct the decisions of kings. Dr. Belzman pastors ACADC Christian Fellowship founded on the notion that healing of the soul best takes place in the context of Christ-centered relationships bathed in prayer. He lives with his family in Calimesa, California and welcomes communication from anyone desiring to serve God by becoming a Christ-centered counselor. He and his staff of Christ-centered professionals may be contacted by email at acadc@acadc.org, or by letter addressed to the Association of Christian Alcohol & Drug Counselors, attn: Mike Belzman, PO Box 8604, Redlands, CA 92375.

This Treatment Improvement Protocol (TIP)is a companion to TIP 51, Substance Abuse Treatment: Addressing the Specific Needs of Women. These two volumes look at how gender-specific treatment strategies can improve outcomes for men and women, respectively.The physical, psychological, social, and spiritual effects of substance use and abuse on men can be quite different from the effects on women, and those differences have implications for treatment in behavioral health settings. Men are also affected by social and cultural forces in different ways than women, and physical differences between the genders influence substance use and recovery as well.This TIP, Addressing the Specific Behavioral Health Needs of Men, addresses these distinctions. It provides practical information based on available evidence and clinical experience that can help counselors more effectively treatment with substance use disorders

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Perfect as the major resource in first courses in Substance Abuse Counseling and Drugs and Behavior or for general clinicians as an on-the-job resource. This guide is designed to increase the knowledge base of the reader/student about alcohol, tobacco, and other drugs (ATOD) and to help them more clearly understand the process of working with clients who are misusing or abusing these drugs – now updated to include the changing substance abuse problems in our nation and around the world. Recognized for its clarity, accessibility, and practical approach, this widely used text thoroughly examines substance abuse in the population, addressing ways to measure the problem and ways to treat individuals and families who seek assistance. The authors educate prospective and practicing clinicians and counselors by guiding them, step-by-step, through the process of working with substance-abuse clients. While the chapters generally build on each other as they take readers through the theory and practice of substance abuse counseling, each chapter can be used as a stand-alone source of valuable information. Illustrative case studies with critical thinking questions.
