A book which inspired the creation of the NHS, The Citadel is a moving story of tragedy, triumph and redemption. With a foreword by Adam Kay, the bestselling author of This is Going to Hurt. When newly qualified doctor Andrew Manson takes up his first post in a Welsh mining community, the young Scot brings with him a bagful of idealism and enthusiasm. Both are soon strained to the limit as Andrew discovers the reality of performing operations on a kitchen table and washing in a scullery, of unspeakable sanitation, of common infantile cholera and systemic corruption. There are no X-rays, no ambulances - nothing to combat the disease and poverty. It isn't long before Andrew's outspoken manner wins him both friends and enemies, but he risks losing his idealism when the fashionable, greedy world of London medicine claims him, with its private clinics, wealthy, spoilt patients and huge rewards. A classic saga by A. J. Cronin, one of the great masters of the genre.

This collection includes three novels whose settings range from Wales to China, and which paint a rich portrait of the changes and upheavals of the early decades of the twentieth century: The Citadel: Set in Great Britain in the years between the world wars, this National Book Award-winning novel is "[a] fine, honest, and moving a study of a young doctor" (The Atlantic Monthly). The Stars Look Down: This thought-provoking novel follows the challenges faced by a Northern England coal mining community and represents "the finest work Cronin has given his public" (Kirkus Reviews). Adventures in Two Worlds - an autobiographical novel by A.J Cronin, creator of television's Dr Finlay and author of The Citadel and many other bestsellers. A master storyteller, A.J Cronin presents possibly his most fascinating tale. Taking material directly from his own life, he tells of the early struggles of a poor medical student in Scotland, the cruel crushing of all hopes of becoming a surgeon, the years as a ship's doctor and, later, life in the country practice that was the real Tannochbrae. There are many strange twists and turns - not the least of them the dramatic move from the world of medicine into that of literature when a novel 'written despairingly on twopenny exercise books, thrown out and rescued from the rubbish heap' was accepted by a publisher. And with Hatter's Castle a new career was born.
