In a dazzlingly original work of nonfiction, the two time Pulitzer-Prize winning author of The Underground Railroad and The Nickel Boys recreates the exuberance, the chaos, the promise, and the heartbreak of New York. Here is a literary love song that will entrance anyone who has lived in—or spent time—in the greatest of American cities. A masterful evocation of the city that never sleeps, The Colossus of New York captures the city ' s inner and outer landscapes in a series of vignettes, meditations, and personal memories. Colson Whitehead conveys with almost uncanny immediacy the feelings and thoughts of longtime residents and of newcomers who dream of making it their home; of those who have conquered its challenges; and of those who struggle against its cruelties. Whitehead ' s style is as multilayered and multifarious as New York itself: Switching from third person, to first person, to second person, he weaves individual voices into a jazzy musical composition that perfectly reflects the way we experience the city. There is a funny, knowing riff on what it feels like to arrive in New York for the first time, a lyrical meditation on how the city is transformed by an unexpected rain shower, and a wry look at the ferocious battle that is commuting. The plaintive notes of the lonely and dispossessed resound in one passage, while another captures those magical moments when the city seems to be talking directly to you, inviting you to become one with its rhythms. The Colossus of New York is a remarkable portrait of life in the big city. Ambitious in scope, gemlike in its details, it is at once an unparalleled tribute to New York and the ideal introduction to one of the most exciting writers working today. Look for Colson Whitehead ' s new novel, Harlem Shuffle, coming this September!

From the two-time Pulitzer Prize-winning author of The Underground Railroad and The Nickel Boys: a tender, hilarious, and supremely original novel about coming-of-age in the 80s. Benji Cooper is one of the few black students at an elite prep school in Manhattan. But every summer, Benji escapes to the Hamptons, to Sag Harbor, where a small community of African American professionals have built a world of their own. The summer of ' 85 won ' t be without its usual trials and tribulations, of course. There will be complicated new handshakes to fumble through and state-of-the-art profanity to master. Benji will be tested by contests big and small, by his misshapen haircut (which seems to have a will of its own), by the New Coke Tragedy, and by his secret Lite FM addiction. But maybe, just maybe, this summer might be one for the ages. Look for Colson Whitehead ' s new novel, Harlem Shuffle, coming this September!

This debut novel by the two time Pulitzer Prize-winning author of The Underground Railroad and The Nickel Boys wowed critics and readers everywhere and marked the debut of an important American writer. Nominated as one of America ' s best-loved novels by PBS ' s The Great American Read It is a time of calamity in a major metropolitan city's Department of Elevator Inspectors, and Lila Mae Watson, the first black female elevator inspector in the history of the department, is at the center of it. There are two warring factions within the department: the Empiricists, who work by the book and dutifully check for striations on the winch cable and such; and the Intuitionists, who are simply able to enter the elevator cab in question, meditate, and intuit any defects. Lila Mae is an Intuitionist and, it just so happens, has the highest accuracy rate in the entire department. But when an elevator in a new city building goes into total freefall on Lila Mae's watch, chaos ensues. It's an election year in the Elevator Guild, and the good-old-boy Empiricists would love nothing more than to assign the blame to an Intuitionist. But Lila Mae is never wrong. The sudden appearance of excerpts from the lost notebooks of Intuitionism's founder, James Fulton, has also caused quite a stir. The notebooks describe Fulton's work on the "black box," a perfect elevator that could reinvent the city as radically as the first passenger elevator did when patented by Elisha Otis in the nineteenth century. When Lila Mae goes underground to investigate the crash, she becomes involved in the search for the portions of the notebooks that are still missing and uncovers a secret that will change her life forever. Greed. Corruption. Murder. New York in 1880 is a hell of a place to make your living. Nellie Bly arrives at age twenty-four in Manhattan, lacking connections and money, but blessed with an abundance of courage and a skill for reportage. Within ten months she lands two front-page stories on the country ' s most widely-read newspaper, Joseph Pulitzer ' s New York World. The pugnacious and voluble Pulitzer is so impressed that he assigns her to get to the bottom of a murder that has confounded the police—the untimely death of his friend Emma Lazarus, the controversial poet and activist. Her investigation leads to tense encounters with some of the most powerful and ruthless men of the time, in an era where elected officials are bought and sold, and where greed runs rampant on an unregulated Wall Street. Outgunned and ignoring her contemptuous all-male colleagues, Bly has only two real allies: a doctor who uses scientific techniques to establish criminal behavior, and a theater critic with unlimited access to underground New York. As the pieces fall into place, Bly uncovers layer after layer of corruption, getting closer to a dangerous core—and to the truth.

Central Park is perhaps the most well-trod and familiar green space in the county. It is both a refuge from the city and Manhattan's very heart; a respite from the urban grind and a hive of activity all its own. 843 carefully planned acres allow some 37 million visitors each year to come and get lost in a sense of nature. Unsurprisingly, the park also inspires a wealth of great writing, and here Andrew Blauner collects some of the finest fiction and nonfiction--20 pieces in all, with classics sprinkled among 13 new ones commissioned from great New York writers. Bill Buford spends a wild night in the park; Jonathan Safran Foer envisions it as a tiny, transplanted piece of a mythical Sixth Borough; and Marie Winn answers definitively Holden Caulfield's question of where the ducks go when the park's ponds freeze over. There are bird sightings and fish sightings; Jackie Kennedy and James Brown sightings; and pieces by Colson Whitehead, Paul Auster, and Francine Prose. This vibrant collection presents Central Park, in all its many-faceted glory, a 51-block swath of special magic.
