With his trademark wit set free in the novel format, DeMarco centers the plot around the development of six software products. Mr. Tompkins, a manager downsized from a giant telecommunications company, divides the huge staff of developers at his disposal into eighteen teams--three for each of the software products. Next, he decides to become the best 127-pound football player Trout High has ever seen; to give his close-minded civics teacher a daily migraine; and to help the local drunk clean up his act. And then there's Dallas Suzuki. Amazingly perfect, fascinating Dallas Suzuki, who may or may not give Ben the time of day. Really, she's first on the list. Living with a secret isn't easy, though, and Ben's resolve begins to crumble . . . especially when he realizes that he isn't the only person in Trout with secrets.
