This book describes at a high level the Army careers of four men who achieved four-star rank: - John Abizaid - George Casey - Peter Chiarelli - David Petraeus While the book covers almost the entirety of their careers, using snapshots of key episodes, at least half of the book deals with their involvement in the Iraq War. Because the careers of these officers often intersected, it was not possible to have separate sections dedicated to each General.

Now he was set to receive a proper four-star send-off, with a marching band and a thumping seventeen-gun salute fired by howitzers pointed out to sea. General George Casey, as the Army chief, had flown in from Washington to preside. It was the kind of occasion Casey loved, the songs and ceremony recalling his childhood on posts around the world.

The order came from General Glenn Otis, the top U.S. Army commander in Europe, one of several three-and four-star generals in the VIP grandstand. As the M1s began moving four abreast down the range, the two tanks on the right side of the formation fired almost at once, the explosions from their main guns sending tongues of flame ripping toward the targets.

Howe will change the way you see the world—and your place in it. With blazing originality, *The Fourth Turning* illuminates the past, explains the present, and reimagines the future. Most remarkably, it offers an utterly persuasive prophecy about how America's past will predict its future. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four eras—or "turnings"—that last about twenty years and that always arrive in the same order. In *The Fourth Turning*, the authors illustrate these cycles using a brilliant analysis of the post-World War II period. First comes a High, a period of confident expansion as a new order takes root after the old has been swept away. Next comes an Awakening, a time of spiritual exploration and rebellion against the now-established order. Then comes an Unraveling, an increasingly troubled era in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. Together, the four turnings comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. *The Fourth Turning* offers bold predictions about how all of us can prepare, individually and collectively, for America's next rendezvous with destiny.

From one of America's preeminent national security journalists, an explosive, news-breaking account of Donald Trump's collision with the American national security establishment, and with the world It is a simple fact that no president in American history brought less foreign policy experience to the White House than Donald J. Trump. The real estate developer from Queens promised to bring his brash, zero-sum swagger to bear to cut through America's most complex national security issues, and he did. If the cost of his "America First" agenda was bulldozing the edifice of foreign alliances that had been carefully tended by every president from Truman to Obama, then so be it. It was clear from the first that Trump's inclinations were radically more blunt force than his predecessors'. When briefed by the Pentagon on Iran and the Strait of Hormuz, he exclaimed, "The next time Iran sends its boats into the Strait: blow them out of the water! Let's get Mad Dog on this." When told that the capital of South Korea, Seoul, was so close to the North Korean border that millions of people would likely die in the first hours of any all-out war, Trump had a bold response, "They have to move." The officials in the Oval Office weren't sure if he was joking. He raised his voice. "They have to move!" Very quickly, it became clear to a number of people at the highest levels of government that their gravest mission was to protect

America from Donald Trump. Trump and His Generals is Peter Bergen's riveting account of what happened when the unstoppable force of President Trump met the immovable object of America's national security establishment--the CIA, the State Department, and, above all, the Pentagon. If there is a real "deep state" in DC, it is not the FBI so much as the national security community, with its deep-rooted culture and hierarchy. The men Trump selected for his key national security positions, Jim Mattis, John Kelly, and H. R. McMaster, were products of that culture: Trump wanted generals, and he got them. Three years later, they would be gone, and the guardrails were off. From Iraq and Afghanistan to Syria and Iran, from Russia and China to North Korea and Islamist terrorism, Trump and His Generals is a brilliant reckoning with an American ship of state navigating a roiling sea of threats without a well-functioning rudder. Lucid and gripping, it brings urgently needed clarity to issues that affect the fate of us all. But clarity, unfortunately, is not the same thing as reassurance.

A PRESIDENTIAL DYNASTY. AN ARAB TERRORIST ATTACK. DEMOCRACY UNDER SIEGE. Mario Puzo envisioned it all in his eerily prescient 1991 novel, The Fourth K. President Francis Xavier Kennedy is elected to office, in large part, thanks to the legacy of his forebears- good

looks, privilege, wealth-and is the very embodiment of youthful optimism. Too soon, however, he is beaten down by the political process and, disabused of his ideals, he becomes a leader totally unlike what he has been before. When his daughter becomes a pawn in a brutal terrorist plot, Kennedy, who has obsessively kept alive the memory of his uncles' assassinations, activates all his power to retaliate in a series of violent measures. As the explosive events unfold, the world and those closest to him look on with both awe and horror.
