The Moon Stealers and the  
Quest for the Silver Bough  
is fast paced and features a  
lot of action. There are a  
fair number of deaths with  
some descriptions that are  
just detailed enough to  
elicit an 'eww' from most  
readers, but not quite  
gruesome enough to bring on  
nightmares. If it was a  
movie its mild slime factor  
would earn a PG rating.

The Moon Stealers The Everlasting Night lacks the epic battles of the second book. It's more of a mystery thriller that requires more thought from its readers. That said there are still plenty of harrowing situations, not all of which favor the lead characters. If it was a movie these scenes would earn a PG rating.
