This volume is a collection based on the Royal Musical Association's Mozart Conference, held at London's South Bank in August 1991. That conference, the largest and most international ever held by the Association, attracted an international group of speakers, and was open to the general public. The 26 papers included here have been substantially revised and extended for publication. They provide a wide panorama of modern Mozart research, exploring aspects of his life and work hitherto obscure, interpreting his instrumental music, and describing the context, in Vienna and Salzburg, in which he lived and worked. Close attention is paid to different aspects of his operas, from Lucio Silla to La clemenza di Tito, with particular stress on the creative processes in the three great Da Ponte operas: Le nozze di Figaro, Don Giovanni, Così fan tutte.

From his depiction of his childhood move to California — a move that propelled him to find books that conjured the sights, smells, and locution of his native Louisiana home — to his description of the real-life murder case that gave him the idea for his masterpiece, this wonderful collection is a revelation of both man and writer.

'Is there a moment in history when a work receives its ideal interpretation? Or is negotiation always required to preserve the past and accommodate the present? The freedom of interpretation, Charles Rosen suggests in these sparkling explorations of music and literature, exists in a delicate balance with fidelity to the identity of the original work. Rosen cautions us to avoid doctrinaire extremes when approaching art of the past. To understand Shakespeare only as an Elizabethan or Jacobean theatergoer would understand him, or to modernize his plays with no sense of what they bring from his age, deforms the work, making it less ambiguous and inherently less interesting. For a work to remain alive, it must change character over time while preserving a valid witness to its earliest state.

Uses the works of Monteverdi, Bach, Mozart, and Beethoven to support the claims that it was only in the later eighteenth century that music began to take the flow of time from the past to the future seriously.
