Cutting the abdomen is bad, but leaving the living child to suffocate in her womb until he dies is a greater evil. So cutting becomes the lesser of two evils. A collection of letters from the SILA newsletter (1988- ) in which the author discusses various subjects from a Swedenborgian perspective.

HIV/AIDS is a scary subject. Not only can it destroy a body but it can also destroy a family, friendships, and even a community. Nobody likes to talk about it, but ignoring the problem won't make it go away. In fact, what you don't know can hurt you and somebody else. The only way we can overcome this disease is through education, precaution, and proper treatment, because nobody is immune. The Reverend Luis Cortés teaches you how to understand the virus and the disease. Prevention is the best approach, but contracting HIV is no longer a death sentence. There are now a variety of treatment choices available and people are living with it, not dying from it. Above all, whether you or someone you know has HIV/AIDS, or you simply want to educate yourself, realize this: There is an answer.

In these Talks, given in Europe, Ojai and India, Krishnamurti addresses the need to approach our life problems in a manner does not perpetuate fragmentation. "Though we have many problems, and each problem seems to produce so many other problems, perhaps we can consider together whether the wisest thing to do is, not to seek the solution of any problem at all. It seems to me that our minds are incapable of dealing with life as a whole; we deal, apparently, with all problems fragmentarily, separately, not with an integrated outlook. Perhaps the first thing, if we have problems, is not to seek an immediate solution for them, but to have the patience to inquire deeply into them, and discover whether these problems can ever be solved by the exercise of will. What is important, I think, is to find out, not how to solve the problem, but how to approach it." An extensive compendium of Krishnamurti's talks and discussions in the USA, Europe, India, New Zealand, and South Africa from 1933 to 1967—the Collected Works have been carefully authenticated against existing transcripts and tapes. Each volume includes a frontispiece photograph of Krishnamurti , with question and subject indexes at the end. The content of each volume is not limited to the subject of the title, but rather offers a unique view of Krishnamurti's extraordinary teachings in selected years. The Collected Works offers the reader the opportunity to explore the early writings and dialogues in their most complete and authentic form.

The Journey What you are about to read is the journey that I took close to a decade ago. This book is really my diary about the investigations I made of a group of mediums and their work. Little did I know that I would also begin to experience phenomenon of a spiritual nature. I made a choice to continue to experience and study and found myself in the need to write down all the experiences that I had so I could later examine them. I found the process and the drama of the soul as they leave their present existence and enter into a new dimension, which is the spiritual world. You will read what I went through, and I learned that life does not end with death but is rather a transformation of the spirit I found that the spirit retains his identity as well as the mind. This journey has taken many turns and continues to this day. I decided to make this information available to all that would wish to read it.

The dimensions of a higher intelligent living being part 1 is about what dimensions are in life because I think any dimension is something for any dimension to be what any is in life, and therefore, the dimensions of a higher intelligent living being is about how dimensions are in life because I think any dimension is something for any dimension to be how any dimension is in life, even though, the dimensions of a higher intelligent living being part 1 is about the possibility of a higher intelligent living being because I think everything is created by a higher intelligent living being that I choose to call God; different aspects of God, Gods will, Gods state of consciousness, Gods thoughts, Gods mind, and Gods being; how everything is in relation to God; how any dimension is able to be overlapping, and co-existing with any other dimension; the embodiment of God, someone, something, and everything because I think there are different characteristics or features that is apart of making up the embodiment of God, someone, something, and everything; God, and someone having a choice of right or wrong because I think God, and someone can choose something that is right or wrong for God, and someone to be having a choice of right or wrong; how something doesnt have a choice of right or wrong; how something is opposite of itself; someones thoughts because I think someones thoughts is someones history of someones life; the truth or a lie because I think someone can be right or wrong for someone to be choosing the truth or a lie; someones beliefs because I think someones thoughts is someones beliefs, and someones feelings because I think someone has feelings for someone to be feeling what someone is feeling.
