This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format. Key Features: Goes beyond mere memorization of facts with "Think in Questions" Socratic-style content review Provides content review, practice exam-style Q&A with rationales, test-taking skills, and test blueprint format Includes thousands of unfolding questions, answers, and hints Contains "bite-size" sections for each topic for easier learning and memorization Includes 500 exam-style questions with rationales The Board of Certification for Emergency Nursing (BCEN) is the sole owner of the Trauma Certified Registered Nurse (TCRN) certification program. BCEN does not endorse any TCRN certification exam review resources or have a proprietary relationship with Springer Publishing Company.

Introduction to Consumer Behaviour and Overview of the Global Food and Drink Sector -- Models of consumer behaviour and holistic healthy lifestyle -- Consumer perceptions in food and drink -- Consumer learning and memory in food and drink -- Motivation and involvement in food and drink -- Consumer personality in food and drink -- Consumer self-concept in food and drink -- Consumer attitudes in food and drink -- Culture and sub-cultures in food and drink -- Role of reference groups in the food and drink sector -- Influences of social class in the food and drink sector -- Situational Factors in Food and Drink -- Organisational buying in food and drink -- Marketing Mix and consumer behaviour in food and drink -- Contemporary Issues, Developments and Transformations in the Food and Drink Sector.

Sociologies in Dialogue brings together expert contributions from international scholars, who reflect on the importance of collaboration between diverse sociological perspectives to enhance our understanding of the role of sociology as an academic discipline, and as a vehicle for social change. By exploring the distinctive practices and research of a range of sociologists, the book shows how an open dialogue between sociologists is critical to addressing major sociological issues across the globe such as inequality and ethnocentrism, and challenging the hierarchies of knowledge production and circulation. Contributors also discuss novel strands in theory and methodology such as multicultural sociology, cosmopolitanism, and multiple modernities. An important contribution for researchers and students interested in global sociology, sociological theories and methodologies.

A practical, accessible and thorough guide to identifying and using rhetorical devices in drama, using examples from both classical and contemporary plays. An unprecedented reference and handbook for actors, directors, playwrights and teachers; written by practitioners for practitioners. Little has been written about how dramatists draw on rhetorical devices, and how a study of these can unlock a text for a performer or director, or indeed inspire contemporary playwrights. This book addresses in detail - yet in straightforward terms - the many different rhetorical forms used in drama, and enables the reader to identify and analyse them. Dramatic Adventures in Rhetoric may be read cover to cover, or it may be dipped into; it is both an analytic tool and a reference aid for use in the classroom or rehearsal room, revealing how careful study of language is one of the best ways of accessing the richness of texts both classical and contemporary.

"The book is clearly written and concise and uses sidebars to highlight core concepts." Score: 90, 4 stars --Doody's Because ER nurses need to think fast and act fast... Fast Facts for the ER Nurse is an orientation guide and reference, designed specifically for new ER nurses and the preceptors responsible for their orientation. The chapters provide a brief overview of equipment, treatments, and drugs used to manage common disorders and conditions frequently seen in the ER. Critical information presented in each chapter includes disorder

definitions, signs and symptoms, interventions, and critical thinking questions. With this guide, nurses can get the information they need fast in bullet-point lists. Each chapter is conveniently organized alphabetically by disease and disorder for quick access. The book serves as an organized, reliable, and thorough ER guide, ensuring a structured approach to orientation. All new ER nurses and their preceptors will find this book to be a reference they cannot do without. Key topics covered include: Cardiovascular Emergencies Disaster Response Emergencies Infectious Disease Emergencies Mental Health Emergencies Shock and Multisystem Trauma Emergencies Substance Abuse and Toxicologic Emergencies And many more!

This how-to guide covers every aspect of law enforcement training, from training academy administration, to designing curricula, to identifying and utilizing qualified instructors. Using the latest methodologies, technologies, and best practices, Training Law Enforcement Officers gives law enforcement administrators, training specialists, instructors, instructional systems designers, and academy directors a proven way to conduct training for all levels of practitioners, from basic law enforcement to high-risk law enforcement. At a time when scrutiny of law enforcement officers is on the rise, Training Law Enforcement Officers is an essential guide for those criminal justice practitioners seeking to minimize police error and make today's police force the best that it can be.

Hong Kong's laissez-faire tradition has crippled attempts to transform it into a more knowledge-intensive economy and this is a lesson with wide applicability. Many emerging economies face innovation bottlenecks, but even some more advanced economies face similar constraints and may benefit from the lessons of its negative example.
