Run the engine in an open area for roughly 5 minutes. Changing the oil in your GTS-5 lawn mower is a fairly straightforward procedure and certainly easier than changing the oil in a car. The oil on your Toro lawn mower should be changed after its first 2 hours of operation. Remove all of the fuel from the tank if it is not already empty.

I have a Toro GTS 5 OHV rear bagger with rear wheel drive. It is an old machine I bought in 1989. Been a good starter and working machine until the last time I used it a few weeks ago. Did some mowing, let it cool down, washed it extensively, and now no starting, as if the water got down inside and caused some issue.

Now if you do a lot of cool weather mowing, consider using Toro's synthetic engine oil, which tends to flow better at lower temperatures making it easier to start the engine. If weather is not the issue, check the air filter. A dirty filter chokes off air to the engine making it hard to start so check to see if yours needs to be replaced.

The Great Book of Harley Davidson chronicles the evolution of the world's most famous motorcycle manufacturer. The history takes us from 1903, when the first Harley emerged from a wooden shed in the backyard of the Davison family, to the 1920s by which time Harleys were available in 67 countries worldwide, to the emergence of the chopper and finally the streamlined "hogs" of today. The text and photographs demonstrate the production process and innovative technology that have made Harley the most famous manufacturer in the world. The second part of the book spotlights the most cutting-edge HD customizers, including Arlen Ness, Cyril Huze, and their disciples, who turn a mechanical wonder into a work of art.
