The ghost of Sherlock Holmes is dead, but who will solve his murder? The Great Detective's ghost has walked London's streets for an age, given shape by people's memories. Now someone's put a ceremonial dagger through his chest. But what's the motive? And who - or what - could kill a ghost? When policing London's supernatural underworld, eliminating the impossible is not an option. DI James Quill and his detectives have learnt this the hard way. Gifted with the Sight, they'll pursue a criminal genius - who'll lure them into a Sherlockian maze of clues and evidence. The team also have their own demons to fight. They've been to Hell and back (literally) but now the unit is falling apart . . . Paul Cornell's *Who Killed Sherlock Holmes?* is the third book in the urban gothic *Shadow Police* series.

A carefully researched vintage-style reimagining of the case of Jack the Ripper pits the nineteenth-century serial killer against Sherlock Holmes, who endeavors to identify and outmaneuver his adversary against a backdrop of their time and without modern technology.

While investigating the mysterious death of a mobster, four police officers come in contact with a strange artifact that grants them the supernatural ability to see the true otherworldly evils that haunt London's streets.

Desperate to find a case to justify the team's existence, with budget cuts and a police strike on the horizon, Quill thinks he's struck gold when a cabinet minister is murdered by an assailant who wasn't seen getting in or out of his limo. A second murder, that of the

Commissioner of the Metropolitan Police, presents a crime scene with a message...identical to that left by the original Jack the Ripper. The new Ripper seems to have changed the MO of the old completely: he's only killing rich white men. The inquiry into just what this supernatural menace is takes Quill and his team into the corridors of power at Whitehall, to meetings with MI5, or 'the funny people' as the Met call them, and into the London occult underworld. They go undercover to a pub with a regular evening that caters to that clientele, and to an auction of objects of power at the Tate Modern. Meanwhile, in Paul Cornell's *The Severed Streets*, the Ripper keeps on killing and finally the pattern of those killings gives Quill's team clues towards who's really doing this.... Mystery fiction. Now, in their newest and most thrilling adventure, the couple is separated by a shocking circumstance in a perilous part of the world, each racing against time to prevent an explosive catastrophe that could clothe them both in shrouds. In a strange room in Morocco, Mary Russell is trying to solve a pressing mystery: "Who am I?" She has awakened with shadows in her mind, blood on her hands, and soldiers pounding on the door. Out in the hivelike streets, she discovers herself strangely adept in the skills of the underworld, escaping through alleys and rooftops, picking pockets and locks. She is clothed like a man, and armed only with her wits and a scrap of paper containing a mysterious Arabic phrase. Overhead, warplanes pass ominously north. Meanwhile, Holmes is pulled by two old friends and a distant relation into the growing war between France, Spain, and the Rif Revolt led by Emir Abd el-Krim--who may be a Robin Hood or a power mad tribesman. The shadows of war are drawing over the ancient city of Fez, and Holmes badly wants the wisdom and courage of his wife, whom he's learned, to his horror, has gone missing. As Holmes searches for her, and Russell searches for her "self," each tries to crack deadly parallel puzzles before it's too late for them, for Africa, and for the peace of Europe. With the dazzling mix of period detail and contemporary pace that is her hallmark, Laurie R. King continues the stunningly suspenseful series that Lee Child called "the most sustained feat of imagination in mystery fiction today."

It is the autumn of 1880, and Dr John Watson has just returned from Afghanistan. Badly injured and desperate to forget a nightmarish expedition that left him doubting his sanity, Watson is close to destitution when he meets the extraordinary Sherlock Holmes, who is investigating a series of deaths in the Shadwell district of London. Several bodies have been found, the victims appearing to have starved to death over the course of several weeks, and yet they were reported alive and well mere days before. Moreover, there are disturbing reports of creeping shadows that inspire dread in any who stray too close. Holmes deduces a connection between the deaths and a sinister drug lord who is seeking to expand his criminal empire. Yet both he

and Watson are soon forced to accept that there are forces at work far more powerful than they could ever have imagined. Forces that can be summoned, if one is brave - or mad - enough to dare...

For the first time in its one-hundred-and-twenty-five-year history, the Arthur Conan Doyle Estate has authorized a new Sherlock Holmes novel. Once again, *THE GAME'S AFOOT...* London, 1890. 221B Baker St. A fine art dealer named Edmund Carstairs visits Sherlock Holmes and Dr John Watson to beg for their help. He is being menaced by a strange man in a flat cap - a wanted criminal who seems to have followed him all the way from America. In the days that follow, his home is robbed, his family is threatened. And then the first murder takes place. Almost unwillingly, Holmes and Watson find themselves being drawn ever deeper into an international conspiracy connected to the teeming criminal underworld of Boston, the gaslit streets of London, opium dens and much, much more. And as they dig, they begin to hear the whispered phrase-the House of Silk-a mysterious entity that connects the highest levels of government to the deepest depths of criminality. Holmes begins to fear that he has uncovered a conspiracy that threatens to tear apart the very fabric of society. The Arthur Conan Doyle Estate chose the celebrated, #1 New York Times bestselling author Anthony Horowitz to write *The House of Silk* because of his proven ability to tell a transfixing story and for his passion for all things Holmes. Destined to become an instant classic, *The House of Silk* brings Sherlock Holmes back with all the nuance, pacing, and almost superhuman powers of analysis and deduction that made him the world's greatest detective, in a case depicting events too shocking, too monstrous to ever appear in print...until now.

Imagine the twisted evil twins of Holmes and Watson and you have the dangerous duo of Prof. James Moriarty - wily, snake-like, fiercely intelligent, unpredictable - and Colonel Sebastian 'Basher' Moran - violent, politically incorrect, debauched. Together they run London crime, owning police and criminals alike. Unravelling mysteries -- all for their own gain. A spin-off from Titan's highly successful *Further Adventures of Sherlock Holmes* series, *The Hound of the D'Urbervilles* sees acclaimed novelist Kim Newman (*Anno Dracula*) take on the fiendish Professor Moriarty.

Ronald Adair, a quiet young man whose only hobby was playing cards, got killed. Watson attempted to crack the case but with no success. One day he decided to examine the area around the victim's house and then he ran into a strange old man. Who is he? Can it be the murderer who came back to the crime scene in disguise? Or the old man is simply a witness? Will Watson find out what happened by applying Holmes' methods or this will not be enough? You can find the answers in "The Adventure of the Empty House" which is a part of "The Return of Sherlock Holmes". Sir Arthur Conan Doyle (1859-1930) was born in Scotland and studied medicine at the University of Edinburgh. After his studies, he worked as a ship's surgeon on various boats. During

the Second Boer War, he was an army doctor in South Africa. When he came back to the United Kingdom, he opened his own practice and started writing crime books. He is best known for his thrilling stories about the adventures of Sherlock Holmes. He published four novels and more than 50 short-stories starring the detective and Dr Watson, and they play an important role in the history of crime fiction. Other than the Sherlock Holmes series, Doyle wrote around thirty more books, in genres such as science-fiction, fantasy, historical novels, but also poetry, plays, and non-fiction.

Holmes' life is in danger. The criminal mastermind Moriarty is after him. Holmes has stood in his way several times, attempting to catch him and prove his guilty. The great detective creates a complex plan with the only goal to solve what is to be the greatest and crowning achievement of his lifetime. Moriarty is however an equal opponent who is not to be underestimated. Moriarty's and Holmes' paths cross near The Reichenbach Falls in Switzerland. Who will prevail in this battle between good and bad, law and outlaw? Will Holmes complete his life goal or he will die trying? "The Final Problem" is a part of "The Memoirs of Sherlock Holmes".
