Amelia Earhart was a woman of many "firsts." In 1932, she became the first woman to fly solo across the Atlantic Ocean. In 1935, she also became the first woman to fly across the Pacific. From her early years to her mysterious 1937 disappearance while attempting a flight around the world, readers will find Amelia Earhart's life a fascinating story.

Amelia Earhart's account of her ill-fated last flight around the world, begun in 1937, remains one of the most moving and absorbing adventure stories of all time. *Last Flight* compiles the letters, diary entries and charts that she sent to her husband, G.P. Putnam at each stage of her trip. In her own words, these dispatches offer a window into her experience on this ground-breaking journey and illustrate her cheerful, charming nature. Her story continues to intrigue and inspire people to this day.

In this brilliantly imagined novel, Amelia Earhart tells us what happened after she and her navigator, Fred Noonan, disappeared off the coast of New Guinea one glorious, windy day in 1937. And she tells us about herself. There is her love affair with flying ("The sky is flesh") There are her memories of the past: her childhood desire to become a heroine ("Heroines did what they wanted") . . . her marriage to G.P. Putnam, who promoted her to fame, but was willing to gamble her life so that the book she was writing about her round-the-world flight would sell out before Christmas. There is the flight itself -- day after magnificent or perilous or exhilarating or terrifying day ("Noonan once said any fool could have seen I was risking my life but not living it"). And there is, miraculously, an island ("We named it Heaven, as a kind of

joke"). And, most important, there is Noonan . . .

When Amelia Earhart disappeared over the Pacific in 1937, she was at the height of her fame. Fascination with Earhart remains just as strong today, as her mysterious disappearance continues to inspire speculation. In this nuanced and often surprising biography, acclaimed aviation historian Kathleen C. Winters moves beyond the caricature of the spunky, precocious pilot to offer a more complex portrait. Drawing on a wealth of contemporary accounts, airline

records, and other original research, this book reveals a flawed heroine who was frequently reckless and lacked basic navigation skills, but who was also a canny manipulator of mass media. Winters details how Earhart and her husband, publisher George Putnam, worked to establish her as an international icon, even as other spectacular pilots went unnoticed. Sympathetic yet unsentimental, this biography helps us to see Amelia Earhart with fresh eyes.

When Amelia Earhart disappeared on July 2, 1937, she was flying the longest leg of her around-the-world flight and was only days away from completing her journey. Her plane was never found, and for more than sixty years rumors have persisted about what happened to her. Now, with the recent discovery of long-lost radio messages from Earhart's final flight, we can say with confidence that she ran out of gas just short of her destination of Howland Island in the Pacific Ocean. From the beginning of her flight, a series of tragic circumstances all but doomed her and her navigator, Fred Noonan. Authors Elgen M. and Marie K. Long spent more than twenty-five years researching the mystery surrounding Earhart's final flight before finally determining what happened. They traveled over one hundred thousand miles to interview more than one hundred people who knew some part of the Earhart story. They draw on authoritative sources to take us inside the cockpit of the Electra plane that Earhart flew and recreate the final flight itself. Because Elgen Long began his own flying career not long after Earhart's disappearance, he can describe the equipment and conditions of the time with a vivid first-hand accuracy. As a result, this book brings to life the primitive conditions under which Earhart flew, in an era before radar, with unreliable communications, grass landing strips, and poorly mapped islands. *Amelia Earhart: The Mystery Solved* does more than just answer the
