Tom Bolton's account of how Harry Ferguson and his inventions changed the world of farming forever.

This is a brilliant examination of the complex processes of the post-1990 transformation in the Czech automotive industry and its selective integration into the West European system. The post-1990 restructuring of the industry is analyzed in the context of its pre-1990 development and in the context of the East European automobile industry as a whole. Specifically, the book examines the development and post-1990 restructuring of the Czech car, components, and truck industries.

The definitive visual history of the tractor The complete history of farm machinery, from steam and vintage tractors to the latest combine harvesters is showcased in this lavishly illustrated volume. Packed with images and tractor data on more than 200 iconic machines, The Tractor Book explores the entire range of tractors and farming machines from around the world, such as Fordson Model F and Massey-Harris GP. Histories of famous marques, such as John Deere and Massey Ferguson, sit alongside immersive visual tours of celebrated machines. The Tractor Book covers how tractors work, their history, major marques and catalogues tractors from every era making this a must-have for anyone fascinated by these extraordinary machines.

The Middle East has always been one of the most challenging destinations for lorry drivers. In the 1970s and 80s, many drivers may not have even heard of the destinations they were sent to before heading out eastwards. Along the way they endured extreme weather conditions, bureaucratic nightmares, and the physical trials of keeping themselves and their trucks operational over many thousands of miles of poorly maintained and dangerous roads. Their adventures have become legendary within the trucking world.In this book Dave Bowers tells with humour and insight the amazing stories of people driving to Middle East destinations, battling against all the odds to deliver their loads. The inspiration comes from his own experience through those routes and in particular on one adventurous journey homewards from Tehran in 1975, when he happened to be stranded in Iran, with no cash to speak of and spending many nights sleeping in abandoned trailers along the way. Dave travelled homewards after he was given lifts in trucks returning to Europe. These were driven by drivers who had many tales to tell, and this book was motivated by the need to keep these fascinating stories alive.Illustrated with photographs of the drivers and vehicles taken at the time, Beyond the Bosphorus records what it was like for ordinary HGV drivers to get involved in something so dramatically different from their everyday working lives in the UK. It will be of interest to lorry drivers, general vehicle enthusiasts and also those with a historical and social interest in the Middle East alike.

❏Blacksmithing❏ is vintage guide to metalworking, with a special focus on farm-related work. Originally written for ❏farmers and farmers❏ sons❏, it contains instructions for making a variety of things necessary for the farm, including tools, horse shoes, wagon and plough components, etc. This volume contains much information that is still relevant today and is highly recommend for modern farmers and blacksmiths. Contents include: ❏Iron and Steel❏, ❏The Farm Shop❏, ❏The Forge Fire❏, ❏Forging Iron and Steel❏, ❏Simple Exercises in Blacksmithing❏, ❏Forging and Tempering Steel Tools❏, ❏Plow Work❏, ❏Wagon Work❏, ❏Horseshoeing❏, ❏Soldering and Brazing❏, etc. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new introduction on metal work.
